

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some mageno commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- ❑ php bin/magento setup:upgrade
- ❑ php bin/magento setup:static-content:deploy-f
- ❑ php bin/magento indexer:reindex
- ❑ php bin/magento cache:clean
- ❑ php bin/magento cache:flush
- ❑ chmod-R 777 var/ pub/ generated/

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

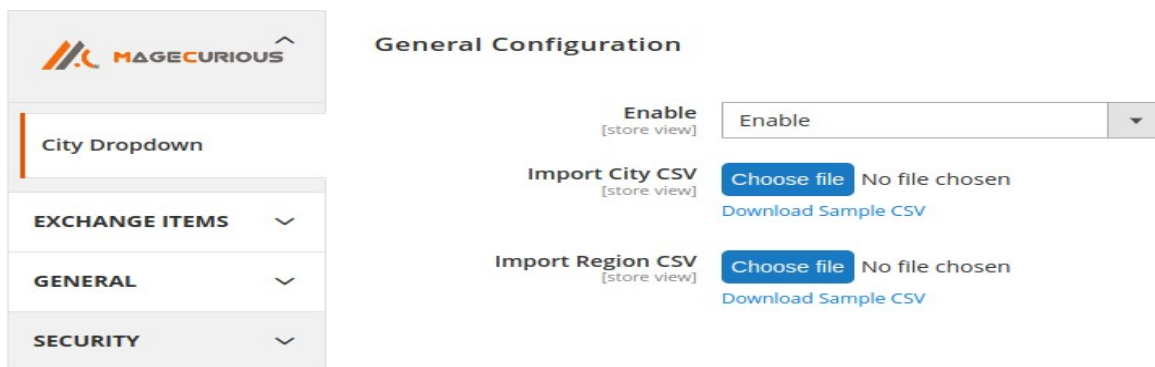

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

↳ How to Configure Extension

Step 1

To Configure Extension go to Stores > Configuration > MageCurious Tab > City Dropdown

Step 2

In General Configuration:

Enabled: Select **Enable** to enable the module.

Import City CSV: Download sample CSV for import City and Import City from here.

Import Region CSV: Download sample CSV for import Region and Import Region from here.

↳ Extension Features

■ Import New Cities for Specific Region

Now go to Stores > Configuration > MageCurious Tab > City Dropdown and Import Cities for Specific Region using CSV.

Example: I want to add a new cities "Ahmedabad", "Surat", "Vadodara", "Rajkot", "Jamnagar", "Junagadh" for Gujarat as shown below.

First go to the City Dropdown -> Region List and find the “ID” from list using filter of country India and Region Name Gujarat.

■ Import New Region for Specific Country

Now go to Stores > Configuration > MageCurious Tab > City Dropdown and Import State for Specific Country using CSV.

Example: I want to add a new region “Kabul”, “Kandahar”, ”Kapisa” for **Afghanistan** as shown below.

The screenshot shows the 'Country List' interface. At the top, there is a search bar with the placeholder 'Search by keyword' and a search icon. To the right of the search bar are icons for filters, a notification bell with a red '2', and a user profile icon labeled 'admin'. Below the search bar, there are buttons for 'Filters', 'Default View', 'Columns', and 'Export'. The 'Active filters' section shows 'Country: Afghanistan' with a close icon. A 'Clear all' link is also present. Below the filters, there is a 'Country' dropdown menu with 'Afghanistan' selected and an 'Iso2 Code (country_id)' input field. At the bottom right of the filter section are 'Cancel' and 'Apply Filters' buttons. Below the filter section, it says '1 records found'. There is a pagination control showing '20 per page' and '1 of 1'. Below the pagination is a table with one record:

<input type="checkbox"/>	Country	Iso2 Code (country_id)
<input type="checkbox"/>	Afghanistan	AF

Now download the sample file from Stores> Configuration > MageCurious Tab > City Dropdown and add the field as per the below screenshot of CSV. and upload the CSV and save configuration.

Note: If you want to update existing City than you must be add the “region_id”.

Fields

Column type:

	Standard	Standard	Standard	Standard
1	region_id	country_id	region_code	default_name
2		AF	KB	Kabul
3		AF	KD	Kandahar
4		AF	KP	Kapisa

Now after save configuration you can see full list of city form City Region Manager -> City List as show as below.
