

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some mageno commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

↳ How to Configure Extension

Step 1

To Configure Extension go to Stores > Configuration > MageCurious Tab > **Voice Search**

The screenshot shows the configuration page for the Voice Search extension. On the left is a sidebar menu with icons for Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, and Stores. The main content area is titled 'Voice Search' and is divided into two sections: 'General Configuration' and 'Design Configuration'. In the 'General Configuration' section, the 'Voice Search' dropdown is set to 'Enable'. In the 'Design Configuration' section, the 'Listening Bar Color' is set to '#d90d0d' (a red color) and the 'Mic Animation Color' is set to '#999388' (a grey color). Red arrows point from text boxes to these settings: 'Enable and Disable Extension from here' points to the dropdown, 'Choose color for listening bar' points to the red color swatch, and 'Choose color for mic animation' points to the grey color swatch. A 'Save Config' button is located in the top right corner.

Step 2

In General Configuration:

Enabled: Select Enable to enable the module.

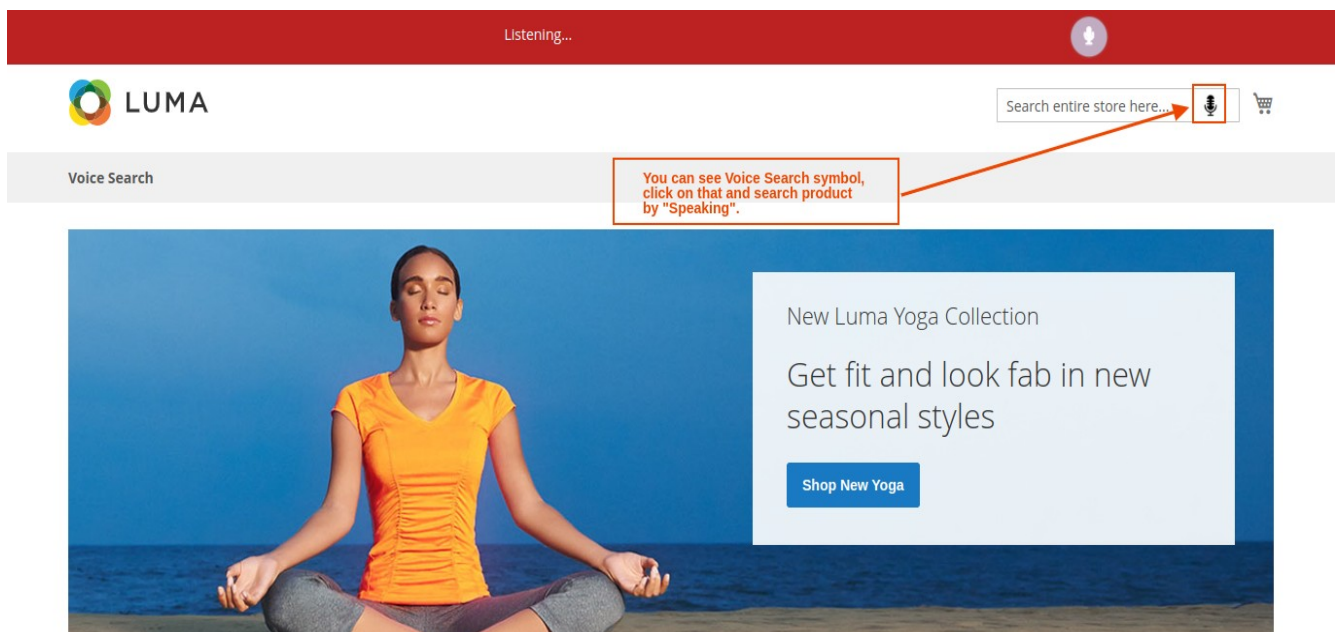

Listening Bar Color : Choose background color for listening bar.

Mic Animation Color: Choose Mic animation color for top listing bar.

↳ Extension Features

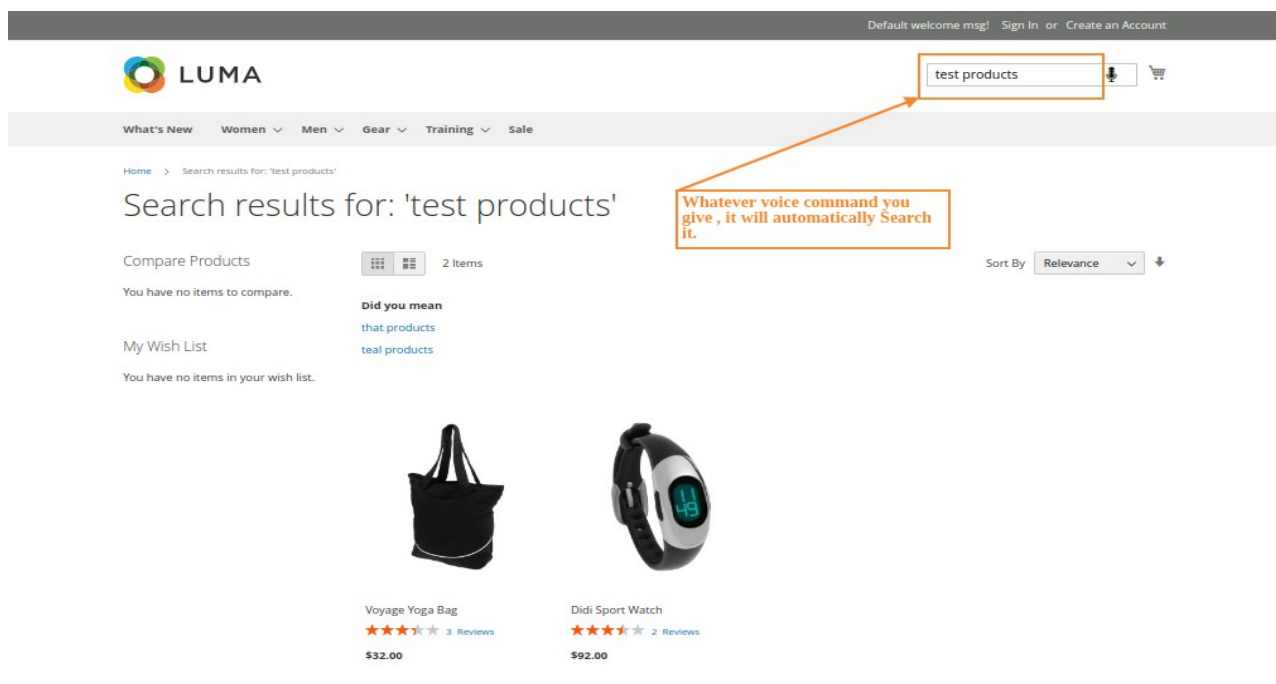

■ Provide Voice Command in Search in frontend:

- > After enabling 'Extension' , Your Website will have Voice-Search iCon(mic).
Just like shown in Below given IMAGE.
- > After clicking on Voice-Search iCon , give 'Voice-Command' to Search Product,
Search-box will show your given voice-input and search it.

After voice command

- > After voice command , your search query will automatically type on text box and it will automatically Search it.
- > Just like in Below image , 'test products' is Voice-Command and it has Searched 'test products'.

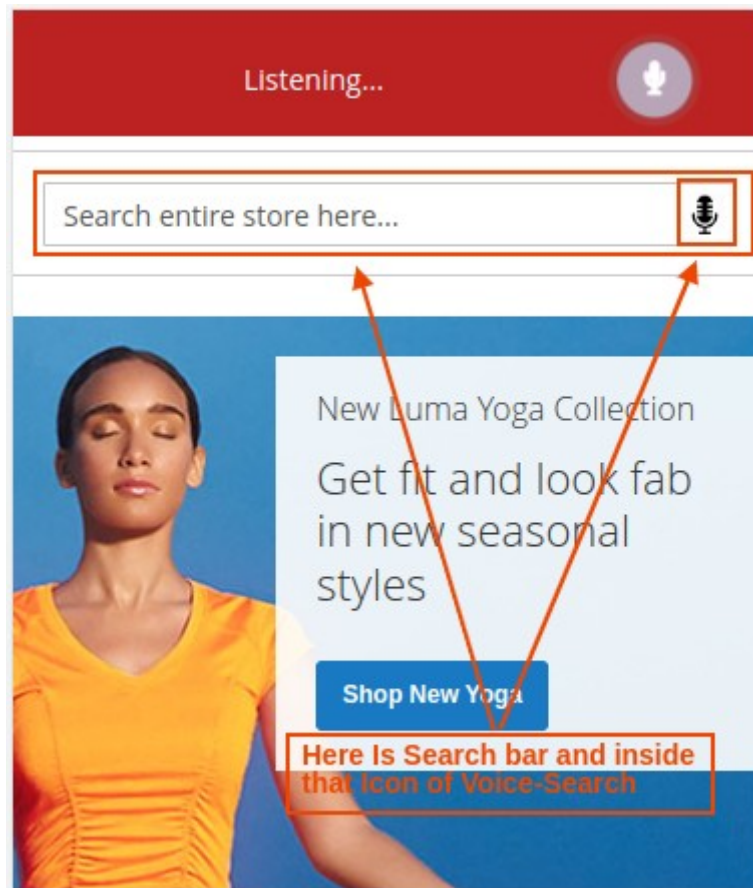

Mobile View And Access To Voice-Search

-> To Access **Voice Search** , Click on '**Magnifier**' to open Search Bar and voice-search Icon.

-> Now tap on '**Voice-Search**' or '**Mic**' Icon as shown below image and give **Voice-Command** to Search Product. It will automatically search whatever **Voice-Command** is given.
