

## ↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

### **Step 1**

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

### **Step 2**

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

**Hey !! You Installed Extension Successfully Now it's time to Configure Extension.**

## About the Extension:

Juspay is a popular payment gateway that can help Magento 2 store owners to accept online payments.

Magecurious Juspay Payment Integration helps to integrate Juspay Payment Method into Magento Store.

The Admin is required to enter API key and Merchant ID that is retrieved from Juspay Dashboard.

The Customer is redirect to the Juspay Payment Page and enter the required details like Debit/Credit Card details.

## Features of Magento 2 Juspay Payment Gateway Extension:

- The admin can enable or disable the module.
- Accept Payment from customer through Juspay Payment Gateway.
- Display the Payment method on frontend.
- Admin is required to enter API key and Merchant ID.
- Admin can customize the payment title.
- Custom message is shown when credit memo is generated and refund is initialize.

## Account & Pricing:

To use this Extension you have to create a Account on Juspay and generate the API key and use this api key and merchant id at the time of configuration of this extension.

For Pricing visit the official website of Juspay.

Juspay website: <https://juspay.in/hypercheckout>

create account: [https://portal.juspay.in/selfSignUp?utm\\_source=hc\\_website&utm\\_medium=pricing\\_tab&utm\\_campaign=25bpsor15kmmc](https://portal.juspay.in/selfSignUp?utm_source=hc_website&utm_medium=pricing_tab&utm_campaign=25bpsor15kmmc)

Login: <https://portal.juspay.in/>

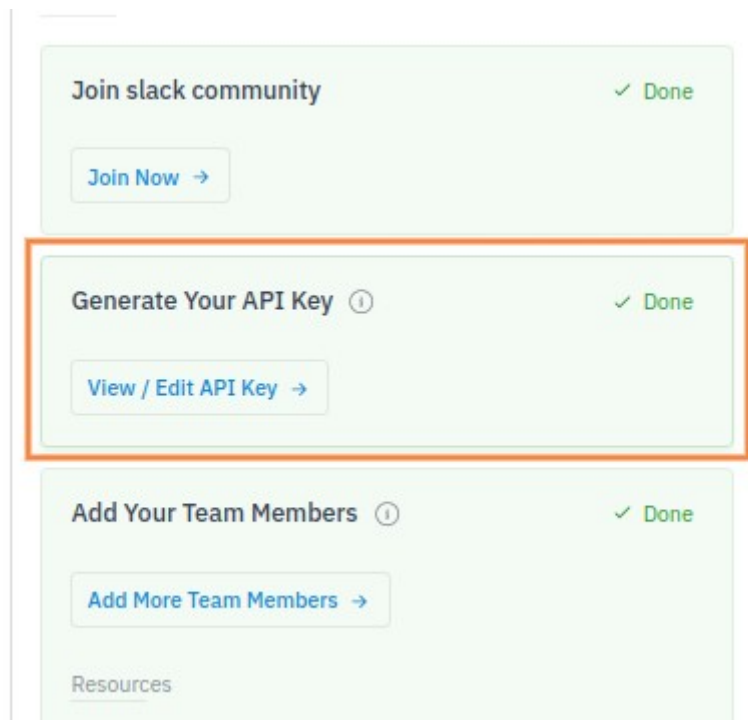

### **Some Important Steps follow on Juspay Dashboard:**

- Generate Your API key.
- Design your Payment Page.
- Set the currency same as Magento 2 store currency.
- Set the Webhooks.

## ↳ How to Configure Extension

### Juspay API Configuration

=> Click on Generate Your API Key on Juspay Dashboard.

## API Keys

An API key is a secure alphanumeric code used to authenticate and grant access to an API, ensuring only authorized users or applications can use it.

+ Create New API Key

API Key	Created At	Updated At	Status	
*****E46D	Dec 01, 2023 04:05 PM (IST)	Dec 13, 2023 05:40 PM (IST)	ACTIVE	
*****50B8	Nov 21, 2023 04:48 PM (IST)	Nov 21, 2023 04:48 PM (IST)	ACTIVE	

## Juspay Webhook Configuration

### Settings

General Security Conflicts **Webhooks**

### Webhook Settings

Update Webhooks Settings

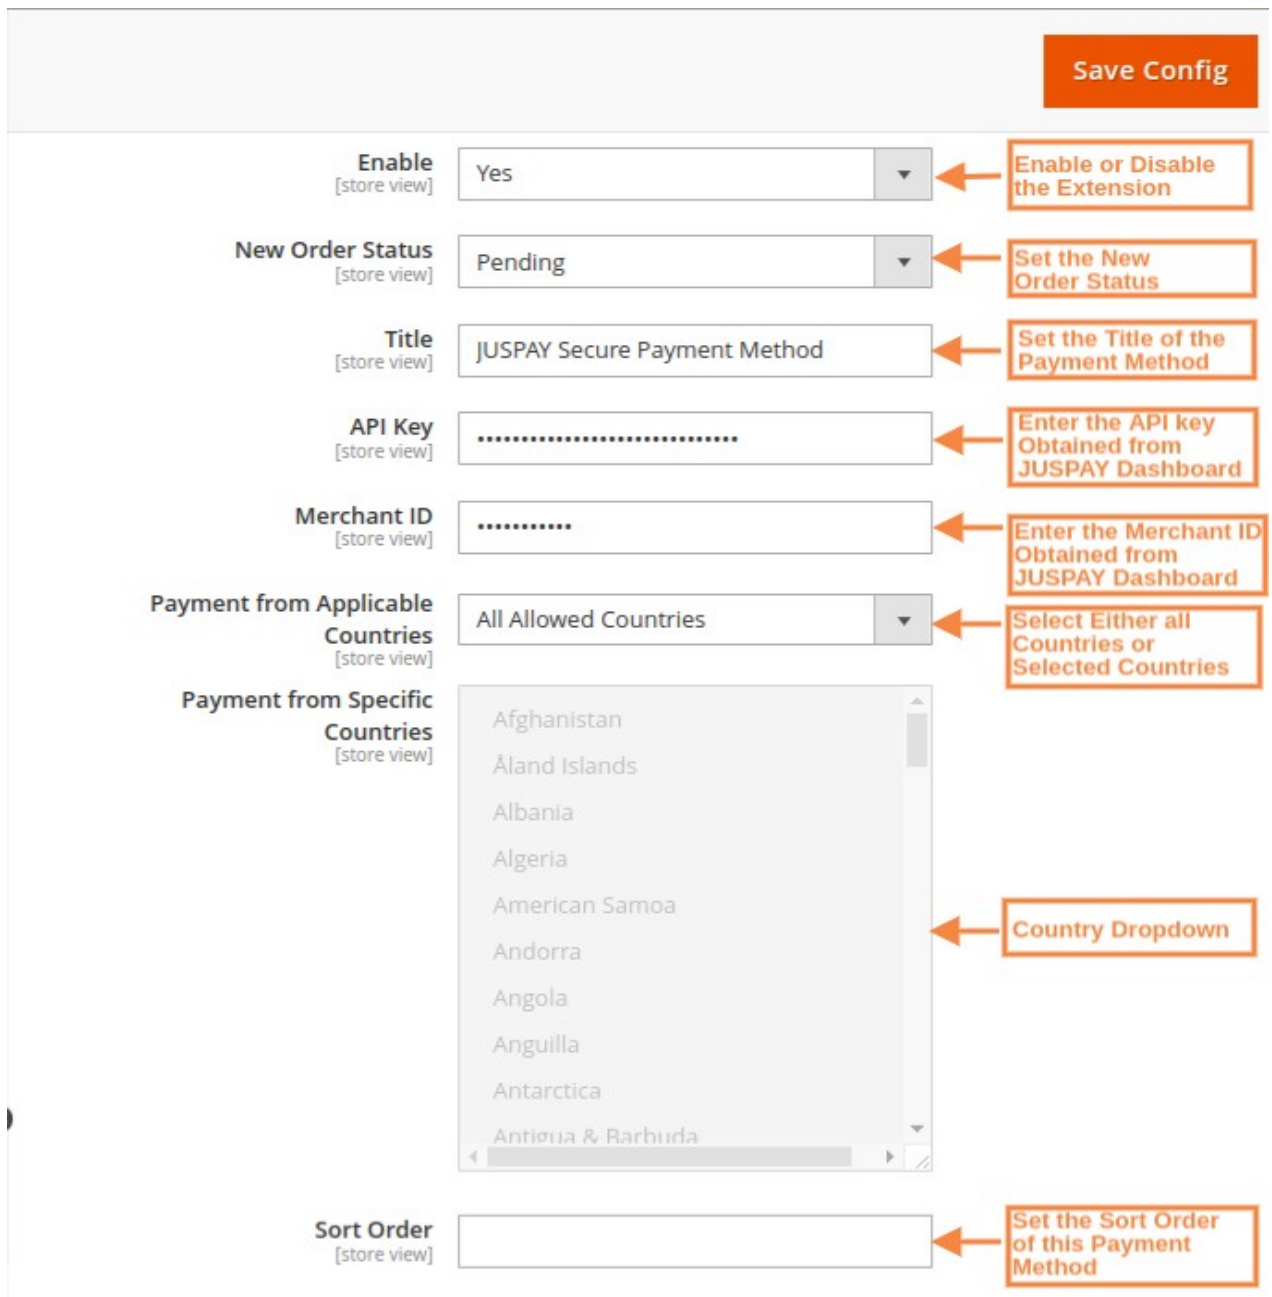

Webhook enables you to perform server-side operations as soon as there is a change in payment status.

Webhook URL ⓘ	Username ⓘ
<input type="text" value="https://magecurious.com/"/>	<input type="text" value="magecurious"/>
API Version	Password
<input type="text" value="2024-01-03"/>	<input type="password" value="....."/>
