Description

Limitqtypcategory Plugin Developed by Magecurious allows store owner to set Minimum Qty and Maximum Qty Limit Per Category to checkout Successfully.

This Plugin provides store owners with the ability to set minimum and maximum purchase limits for products within specific categories.

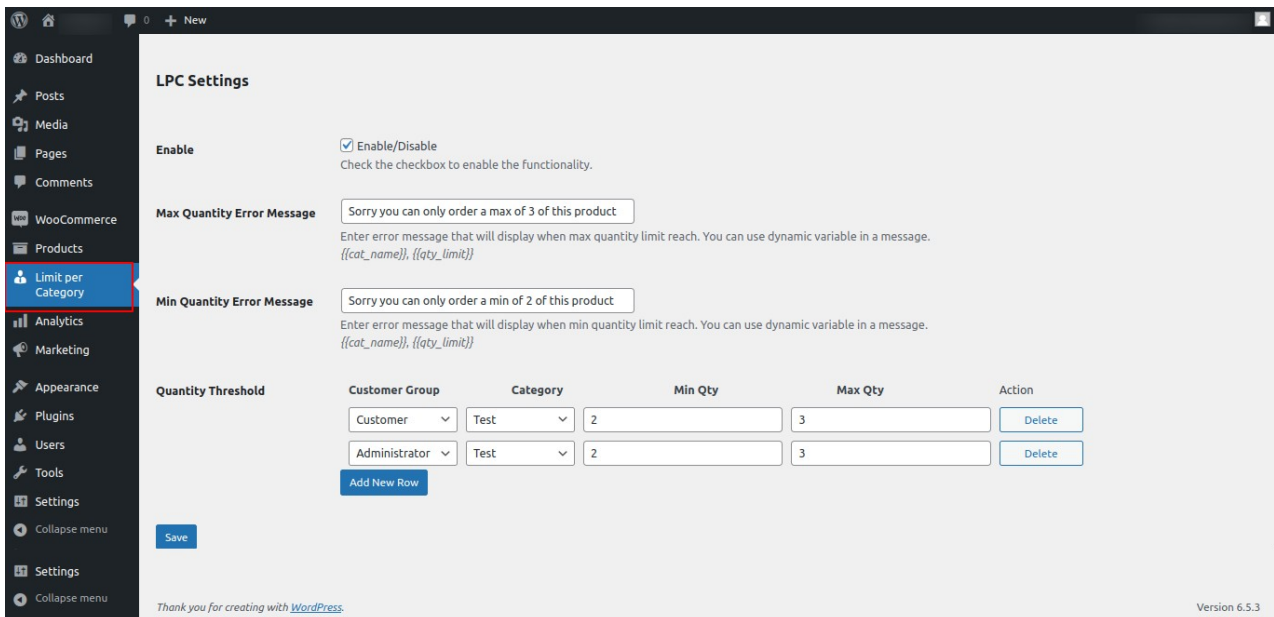

By setting limits at the category level, store owners can tailor their restrictions, ensuring that customers cannot buy excessive quantities of items within a particular category.

In case customer add more or less quantity customer can show error message and prevents checkout.

This helps manage inventory effectively, prevent abuse of discounts or promotions, and enhance the overall shopping experience. By controlling purchase quantities at the category level, businesses can tailor their strategies, prevent stockouts of popular items, and encourage desirable shopping behaviors.

Configuration

After Installation and Activate the Plugin Configure the Plugin.

The screenshot shows the 'LPC Settings' configuration page for the 'Limit per Category' plugin. The page is divided into several sections:

- Enable:** A checkbox labeled 'Enable/Disable' is checked. Below it, a note says 'Check the checkbox to enable the functionality.'
- Max Quantity Error Message:** A text input field contains 'Sorry you can only order a max of 3 of this product'. Below it, a note says 'Enter error message that will display when max quantity limit reach. You can use dynamic variable in a message. {{cat_name}}, {{qty_limit}}'.
- Min Quantity Error Message:** A text input field contains 'Sorry you can only order a min of 2 of this product'. Below it, a note says 'Enter error message that will display when min quantity limit reach. You can use dynamic variable in a message. {{cat_name}}, {{qty_limit}}'.
- Quantity Threshold:** A table with columns: Customer Group, Category, Min Qty, Max Qty, and Action. It contains two rows:

Customer Group	Category	Min Qty	Max Qty	Action
Customer	Test	2	3	Delete
Administrator	Test	2	3	Delete

Below the table is an 'Add New Row' button.

At the bottom left, there is a 'Save' button. At the bottom right, it says 'Version 6.5.3'. At the bottom center, it says 'Thank you for creating with WordPress.'

- **Enable:** Enable or Disable the Plugin.
- **Max Quantity Error Message:** Set the Error Message for the Maximum Quantity Limit.
- **Min Quantity Error Message:** Set the Error Message for the Minimum Quantity Limit.
- **Quantity Threshold:** Set Minimum and Maximum Quantity Limit per customer group and per category.

Front Area:

After configuration of min and max quantity limit per category from admin go to the frontend and select that category and add to cart the product you will see the error message like below screenshot.
