

## ↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

### Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

### Step 2

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

### Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

**Hey !! You Installed Extension Successfully Now it's time to Configure Extension.**

## **About the Extension:**

Magecurious ProductDesigner Extension provides customization features to design a product .

Personalization can make customers happy.

People prefer customized designs for products like t-shirt, bags, mugs, etc.

Customer can personalize there product using text, image, clipart etc.

This extension helps to improve shopping experience.

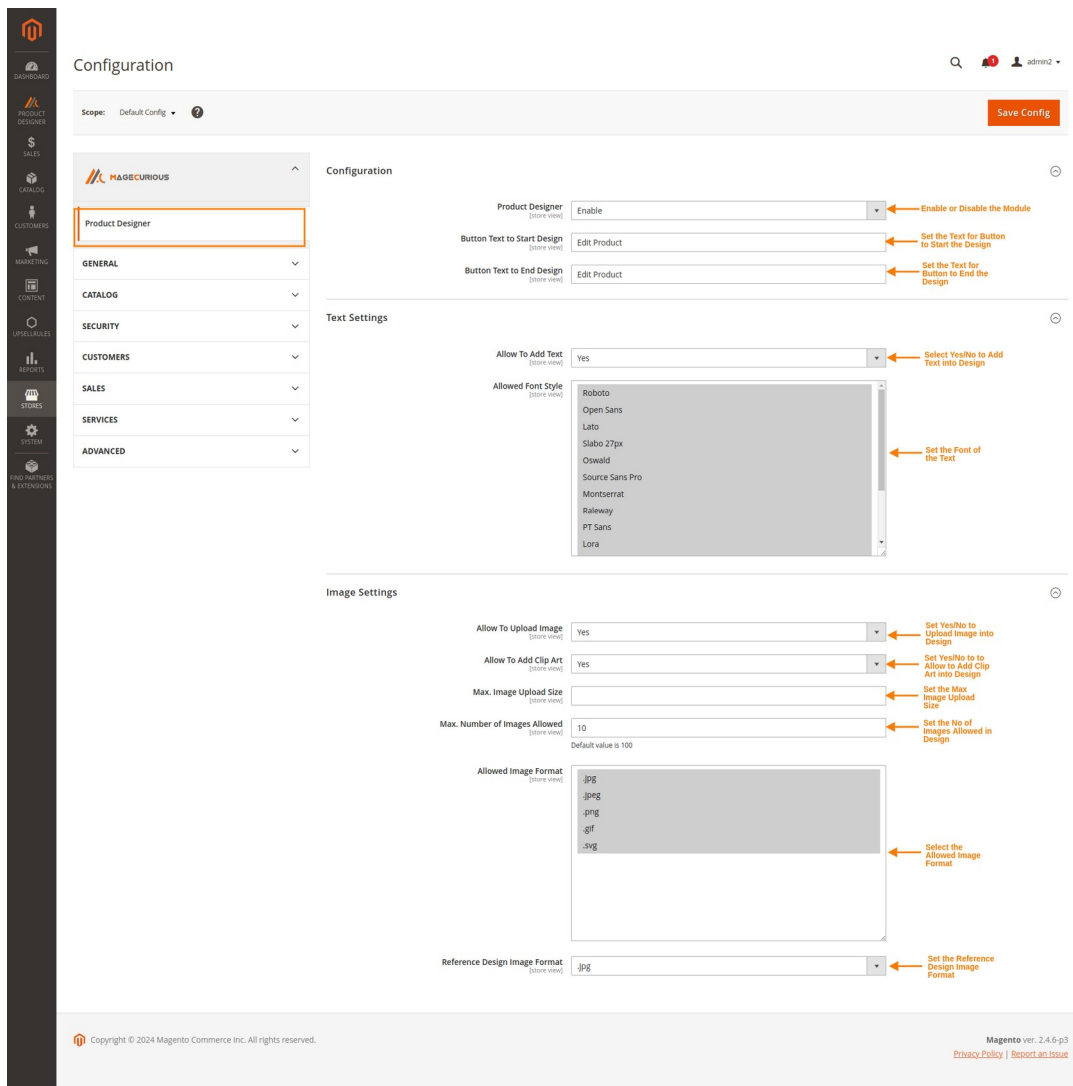

## **Features of Magento 2 Product Designer Extension:**

- The admin can enable or disable the module.
- Customer can set text settings like fonts.
- Customer can add clip art images and configure this image.
- Edit Product Option Available to change the design.
- Customer can change advanced properties like Shadow, opacity, outline etc.

## ↳ How to Configure Extension

### Step 1: Configuration

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> Product Designer Tab -> Configuration**

The screenshot shows the 'Configuration' page for the Magecurious extension. The left sidebar lists various system areas, with 'Product Designer' highlighted. The main content area is divided into three sections: Configuration, Text Settings, and Image Settings. Each section contains several settings with dropdown menus and text input fields. Red arrows point to specific settings with explanatory text:

- Configuration:**
  - Product Designer:** Enable (Enable or Disable the Module)
  - Button Text to Start Design:** Edit Product (Set the Text for Button to Start the Design)
  - Button Text to End Design:** Edit Product (Set the Text for Button to End the Design)
- Text Settings:**
  - Allow To Add Text:** Yes (Select Yes/No to Add Text into Design)
  - Allowed Font Style:** Roboto, Open Sans, Lato, Slabo 27px, Oswald, Source Sans Pro, Montserrat, Raleway, PT Sans, Lora (Set the Font of the Text)
- Image Settings:**
  - Allow To Upload Image:** Yes (Set Yes/No to Upload Image into Design)
  - Allow To Add Clip Art:** Yes (Set Yes/No to Allow to Add Clip Art into Design)
  - Max. Image Upload Size:** (Set the Max Image Upload Size)
  - Max. Number of Images Allowed:** 10 (Set the No of Images Allowed in Design. Default value is 100)
  - Allowed Image Format:** .jpg, .jpeg, .png, .gif, .svg (Select the Allowed Image Format)
  - Reference Design Image Format:** .jpg (Set the Reference Design Image Format)

Various Product Designer Options like Text, Image, Clipart select as per your requirement and configure individual options as per your requirements.

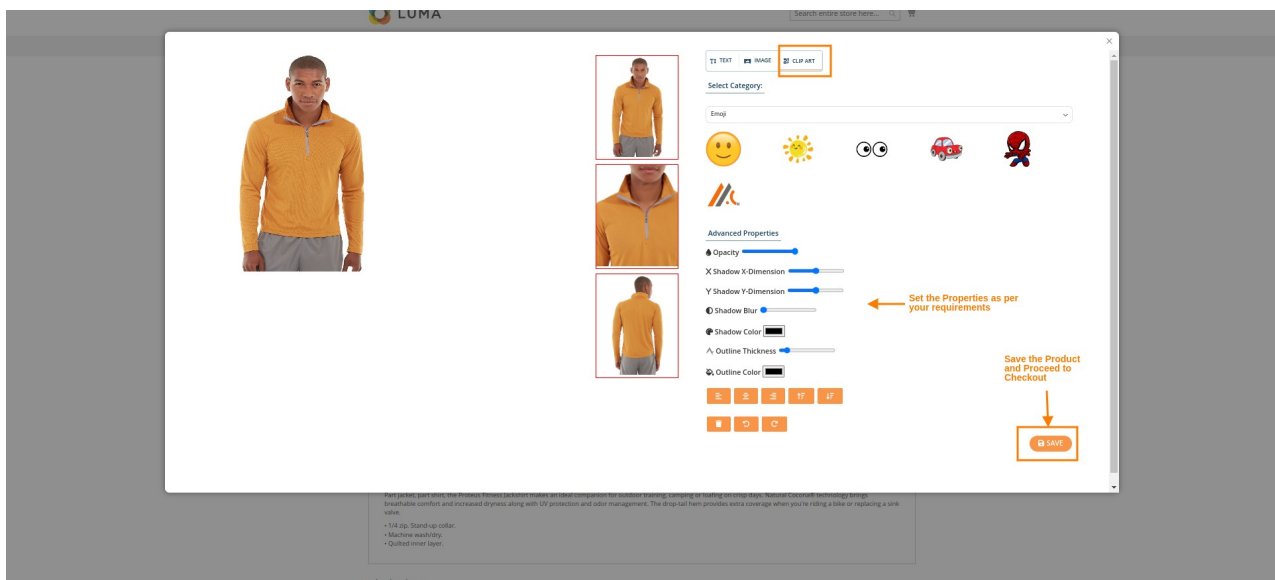

### Text Option:

### Image Option:

## Clip Art Option:

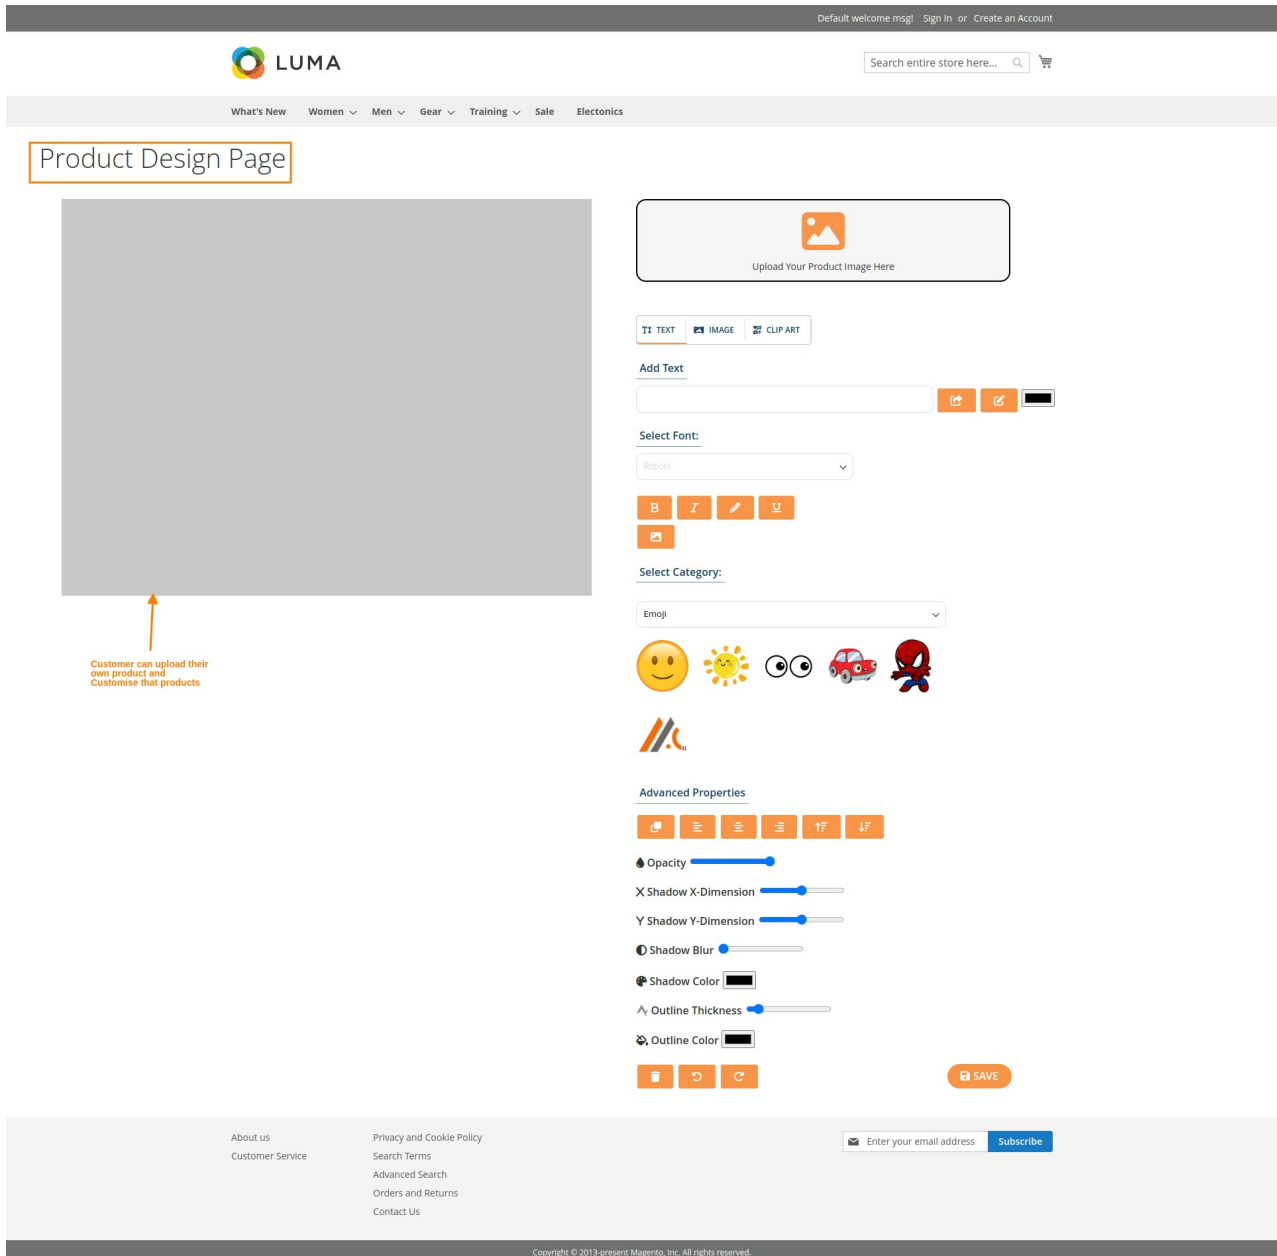

You can configure various options like Add Text, Select Font, Upload Image, Upload Clipart and also you can select Advanced Properties like Opacity, Shadow X-Y Dimension, Shadow Effect, Outline etc.

After Completing all settings click on **Save** Button this will be redirect to proceed to checkout.

## Step 11: Custom Product Design

Customer can upload their own product and customise this product also this is different section of this module.

The screenshot shows the LUMA Product Design Page. At the top, there is a navigation bar with the LUMA logo, a search bar, and a shopping cart icon. Below the navigation bar, there are menu items: What's New, Women, Men, Gear, Training, Sale, and Electronics. The main content area is titled "Product Design Page" and features a large grey box for uploading a product image. To the right of this box is a design tool interface with various options: "Upload Your Product Image Here", "Add Text", "Select Font" (with a dropdown menu showing "Roboto"), "Select Category" (with a dropdown menu showing "Emoji" and a row of emoji icons), and "Advanced Properties" (with sliders for Opacity, X Shadow X-Dimension, Y Shadow Y-Dimension, Shadow Blur, Shadow Color, Outline Thickness, and Outline Color). A "SAVE" button is located at the bottom right of the design tool. At the bottom of the page, there is a footer with links for "About us", "Customer Service", "Privacy and Cookie Policy", "Search Terms", "Advanced Search", "Orders and Returns", and "Contact Us". A subscription form is also present in the footer, asking for an email address and a "Subscribe" button. The footer also includes a copyright notice: "Copyright © 2013-present Magento, Inc. All rights reserved."

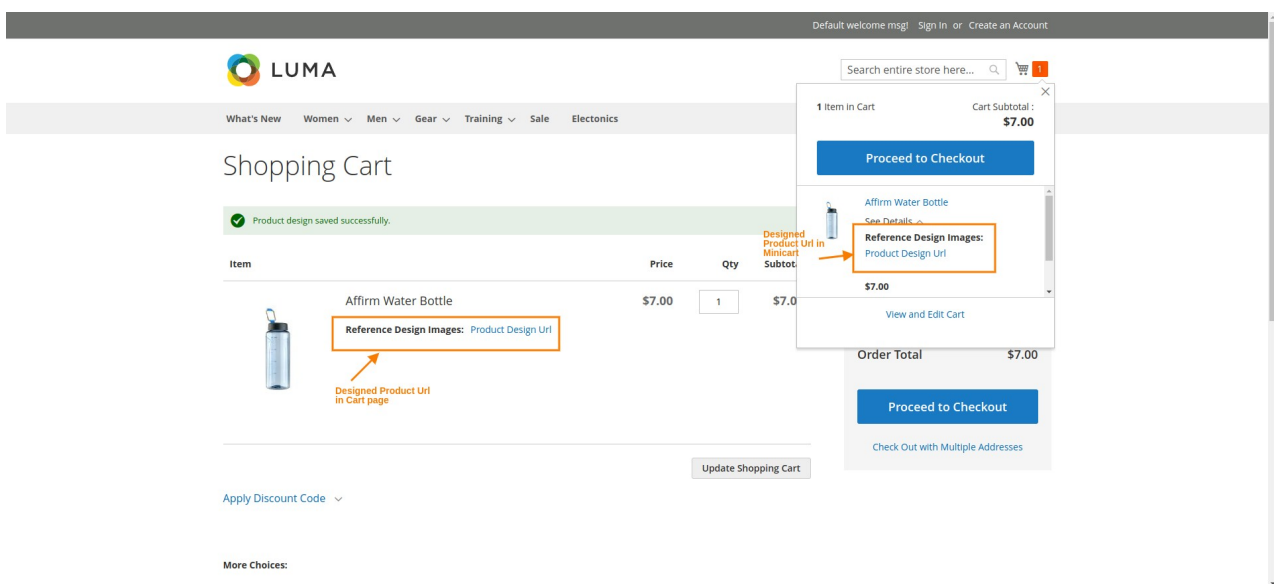

Product Design Page

Customer can upload their own product and customise that products

## Step 12: After Product Design (not custom product design)

After Completing all settings click on Save Button this will be redirect to proceed to checkout.
