

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some mageno commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

↳ How to Configure Extension

Step 1

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> Review Purchased Order Tab**

Step 2

Extension Configuration :

The screenshot displays the 'Configuration' page for the Magecurious extension. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled 'Configuration' and includes a 'Save Config' button. The 'Review Purchased Order' tab is selected, showing the following settings:

Setting	Value	Annotation
Review Purchased Order	Enable	Enable Review Purchased Order From Here
Customer Type	Login	Select Customer Type Login Or Guest
Auto Approve Review	Yes	Select Auto Approve Review Yes Or No
Show Message	sorry you can not give review for {{product_name}} Ex.Sorry you can not give review for {{product_name}}	If Customer Login But Not Order Placed Show Error Message
Upload Images	Yes	If Selected Yes Show Image Uploader Field In Review Form

Enable Extension : Enable or disable the Review Purchased Order extension.

Customer Type : Select customer Login or Guest.if select Login only purchaser allow to write review.

Auto Approve Review : If auto approve is yes then the review will show in the preview section.

Show Message : If the customer is logged in and has not placed an order, an error message will be shown.

Upload Image : If selected yes Image uploader field show in frontend review form.

Step 3

The admin can set the custom product review by navigating through Marketing -> User Content -> All Reviews -> New Review -> <select any product> then you will be show below like screenshot.

- If status is approved then shows review with review image in frontend review section.
- If Multiple Image is Uploaded in new review form then multiple image preview is shown in slider in frontend form.

Step 4

After clicking on the review save button you can see the review on frontend.

Step 5

The admin can edit review form, go to Marketing -> All Reviews -> <select any record> -> Edit.

The screenshot shows the 'Edit Review' form in the Magecurious admin dashboard. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled 'Edit Review' and includes a search bar, a user profile 'admin', and a navigation bar with buttons: Back, Delete Review, Reset, Previous, Next, Save and Previous, Save and Next, and a prominent orange 'Save Review' button. The 'Review Details' section contains the following fields:

- Product:** Strive Shoulder Pack
- Author:** Administrator
- Summary Rating:** ★★★★★
- Detailed Rating * Rating:** ★★★★★
- Status *:** Approved (dropdown menu)
- Nickname *:** Magecurious (text input)
- Summary of Review *:** Test (text input)
- Review *:** Good Product Must be Purchased. (text area)

Below the text area is a 'Review Images' section with a carousel of images. The first image shows a person holding a smartphone in front of a modern building at dusk.

At the bottom of the page, the footer contains: Copyright © 2024 Magento Commerce Inc. All rights reserved. and Magento ver. 2.4.6-p4. Links for Privacy Policy and Report an Issue are also present.

Step 6

Frontend Review Form : If Customer Type is set to “Login”, But Not Order Placed and not generate Shipment then Shows Error Message as shown in the below screenshot.

Note: Minimum One Product Shipment has been generated then after you can review any product.

The screenshot displays a review form with the following elements:

- Rating:** Five red stars.
- Customer Is Login But Not Generate Shipment:** A red-bordered box with this text.
- Nickname *:** A text input field containing "test".
- Summary *:** A text input field containing "test summary".
- Review *:** A text area containing "test review".
- Upload Images *:** A section with a camera icon and four image thumbnails (a cap, a watch, a shoe, and a scarf), each with a close 'x' button.
- Submit Review:** A button.
- Customer Is Login But Not Generate Shipment Show Error Message:** A red-bordered box with this text and an arrow pointing to the error message below.
