

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1 :

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2 :

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:
