

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP (File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app, bin, lib, phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system, so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

↳ How to Configure Extension

Step 1

To Configure Extension go to **Stores -> Settings -> Configuration -> Sales -> Delivery Methods Tab -> Shiprocket**

Shiprocket

Enabled [website]	Yes	▼	← Enable the shiprocket shipping method from here.
Title [store view]	Shiprocket		← From here, enter the title
Method Name [store view]	Shiprocket		← set Method Name from here
Price [website]	15.00		← set price from here
Calculate Handling Fee [website]	Fixed	▼	← Set Handling Fee from here
Handling Fee [website]	5		
Sort Order [website]	0		← Set sort order from here
Ship to Applicable Countries [website]	All Allowed Countries		← set up Applicable Countries from here
Ship to Specific Countries [website]	<ul style="list-style-type: none">BangladeshBarbadosBelarusBelgiumBelizeBeninBermudaBhutanBoliviaBosnia & HerzegovinaBotswana		
Displayed Error Message [store view]	This shipping method is not available right now.		← Set up and customize Displayed Error Message from here

Step 2

In Shiprocket Configuration:

Enabled : select Yes so that Shiprocket shipping appears in the Shipping section at your customer's checkout page.

Title : Write down title for your shipping method

Method Name : Write down Method Name for your shipping method

Price : Set price for your shipping method

Calculate Handling Fee : Set Handling Fee type Fixed/Percent.

Handling Fee : You can enter the amount to pay for the Handling Fee.

Sort Order : It's the order in which the Shiprocket appears relative to other shipping methods on the checkout page.

Ship to Applicable Countries : Customers from any country in the store configuration can use Shiprocket.

Ship to Specific Countries : Only customers from the countries you choose can use Shiprocket.

Displayed Error Message : If the customer chooses Shiprocket when this method is unavailable, this message will prompt the customer to choose another shipping method in Magento 2.

Step 3

In Shiprocket Configuration:

Shiprocket Authentication API

Email
[store view]

Password
[store view]

Please enter your
Shiprocket
API user details.

Note : Log in to Shiprocket now, and click on the link below to create your API user details.

[Shiprocket Authentication API](#)

Email: Please write down the Shiprocket Authentication API email.

Password: Please write down the Shiprocket Authentication API password.

Step 4

In Pickup Location Configuration:

Pickup Location	Here you can write down the details of your pickup location.	
Pickup Location <small>[store view]</small>	<input type="text" value="Magecurius_504824_394562"/>	
Pickup Name <small>[store view]</small>	<input type="text" value="Test"/>	
Pickup Email <small>[store view]</small>	<input type="text" value="test@gmail.com"/>	
Pickup Phone <small>[store view]</small>	<input type="text" value="8140216025"/>	
Pickup Address <small>[store view]</small>	<input type="text" value="710,711 Gopal palace"/>	
Pickup Address2 <small>[store view]</small>	<input type="text" value="shivranjani"/>	
Pickup City <small>[store view]</small>	<input type="text" value="Ahmedabad"/>	
Pickup State <small>[store view]</small>	<input type="text" value="Gujrat"/>	
Pickup Country <small>[store view]</small>	<input type="text" value="India"/>	
Pickup Pincode <small>[store view]</small>	<input type="text" value="380051"/>	
Generate Pickup Location	<input type="button" value="Generate Now"/>	

Pickup Location : Fill in your unique pickup location code here.

Pickup Name : Fill in your pickup location name here.

Pickup Email : Fill in your pickup location email address here.

Phone : Fill in your pickup location phone number here.

Address : Fill in your pickup location address here.

Address2 : Fill in your pickup location another address line here.

City : Fill in your pickup location city here.

State : Fill in your pickup location state here

Country : Fill in your pickup location country here.

Pincode : Fill in your pickup location Pincode here.

Generate Pickup Location : Click this button to generate the unique pickup location code.

Note : In order to generate a unique pickup location code, please save the pickup location configuration after clicking "Generate Pickup Location."

Step 5

In Catalog Products :

Go to **Catalog > Products** and add or edit a product. Please enter the selected product's **weight**, **measurement**, **length**, **width**, and **height** for the **shiprocket shipping method**.

↳ Extension Features

By using the Magecurious Shiprocket Extension, Shiprocket shipping appears in the Shipping section of your customer's checkout page. This extension allows admins to sync orders into Shiprocket, cancel shipments, and track orders from the Magento admin panel. On the frontend, users can track their orders as well.

➤ In the Frontend Shiprocket

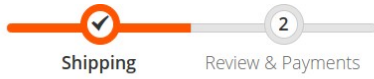

Go to your frontend website site and create a new user so you can log into your website, or if you've already exited your customer account, login directly to your website. Now add the product to your shopping cart and go to the checkout page and use the shiprocket shipping method.

Note : This shiprocket shipping option is also available to non-logged users.

The screenshot displays two parts of a Magento storefront. On the left is the 'Customer Login' section, which includes a 'Registered Customers' area with fields for 'Email' and 'Password', a 'Show Password' checkbox, and 'Sign In' and 'Forgot Your Password?' buttons. Below this is a breadcrumb trail: 'Home > Wayfarer Messenger Bag'. On the right is the product page for 'Wayfarer Messenger Bag', showing a 4-star rating (3 reviews), a price of '\$1.00', 'IN STOCK' status, and SKU# 24-MB05. A quantity selector is set to '1', and a blue 'Add to Cart' button is highlighted with a red border. Below the button are links for 'ADD TO WISH LIST' and 'ADD TO COMPARE'. An image of the black messenger bag is shown at the bottom left of the product area.

Shiprocket courier services list and shipping method will be displayed on the checkout page based on the distance between pickup and delivery zip codes.
