

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

Magecurious Delhivery Extension is an Indian shipping solution that works with the Indian postal code system. This module calculates Delhivery shipping rates automatically based on the Pincode and product weight. It assigns a tracking number as soon as the admin ships the product. The admin can also create shipping labels and manifests in PDF format.

Features of Magento Delhivery Extension:

- It works on the Indian Postal Code system
- More than 13000 pin codes are serviceable.
- Automatically Calculates rates according to the pin code and product weight.
- Automatically Generate Tracking number.
- Shipping label, having the barcode, can be printed and Download.
- Admin And Customer Both Track The shipment Order.
- After Order syncs It Show On Delihvery Dashboard.
