

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some mageno commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

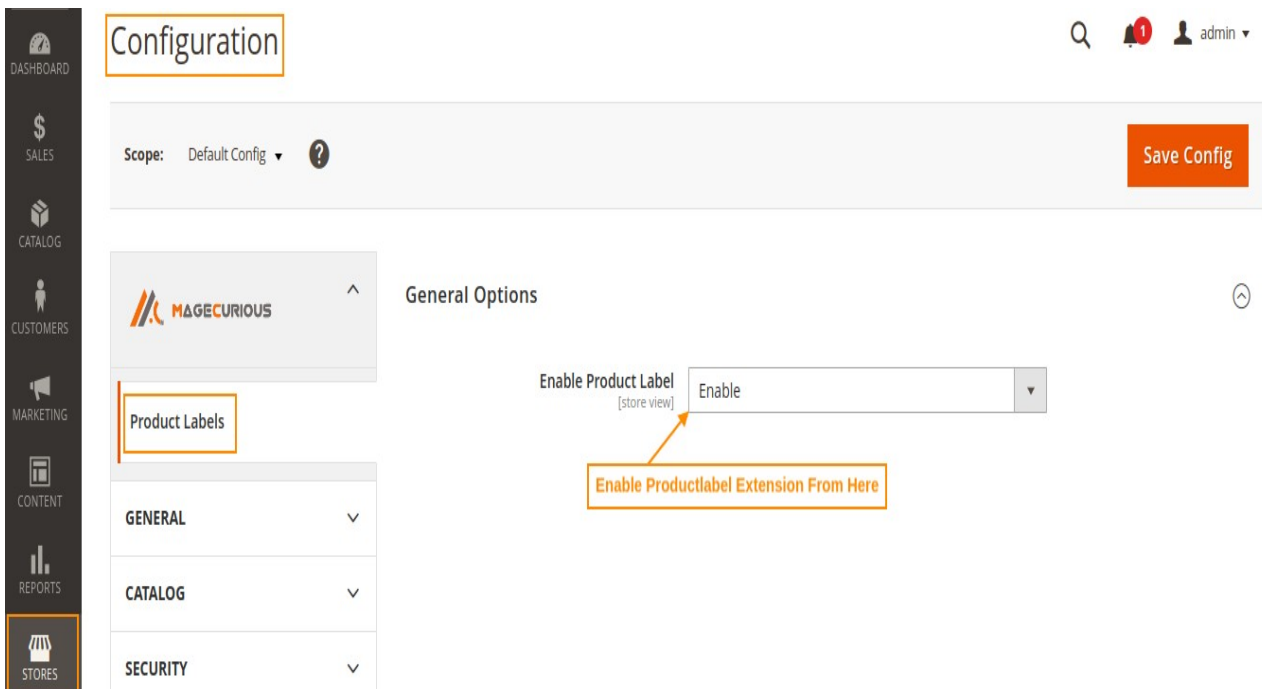

↳ How to Configure Extension

Step 1

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> Product Label Tab -> Configuration**

Step 2

Extension Configuration :

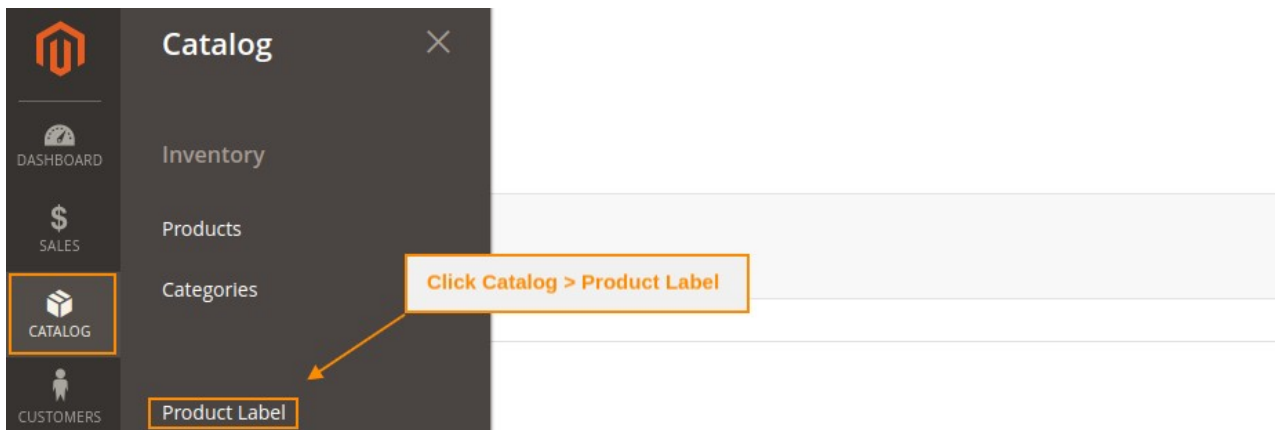

The screenshot shows the 'Configuration' page in the Magecurious admin interface. The left sidebar contains navigation options: DASHBOARD, SALES, CATALOG, CUSTOMERS, MARKETING, CONTENT, REPORTS, and STORES. The main content area is titled 'Configuration' and includes a search bar, a notification bell with '1', and a user profile 'admin'. Below this is a 'Scope' dropdown set to 'Default Config' and a 'Save Config' button. The 'Product Labels' section is expanded, showing 'General Options'. Under 'General Options', the 'Enable Product Label [store view]' dropdown menu is set to 'Enable'. An orange box with an arrow points to this dropdown, containing the text 'Enable Productlabel Extension From Here'.

Enable Extension : Enable or disable the Product Label extension.

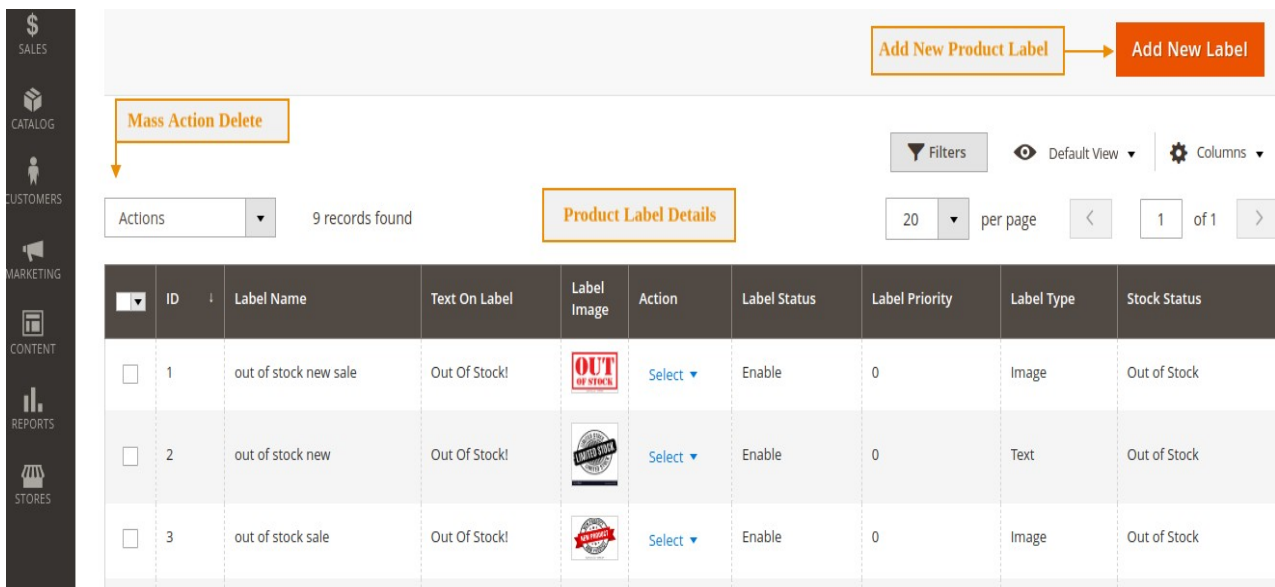

Step 3

The admin can set the custom product labels by navigating through Catalog -> Inventory -> Product Label as shown below in the screenshot.

Step 4

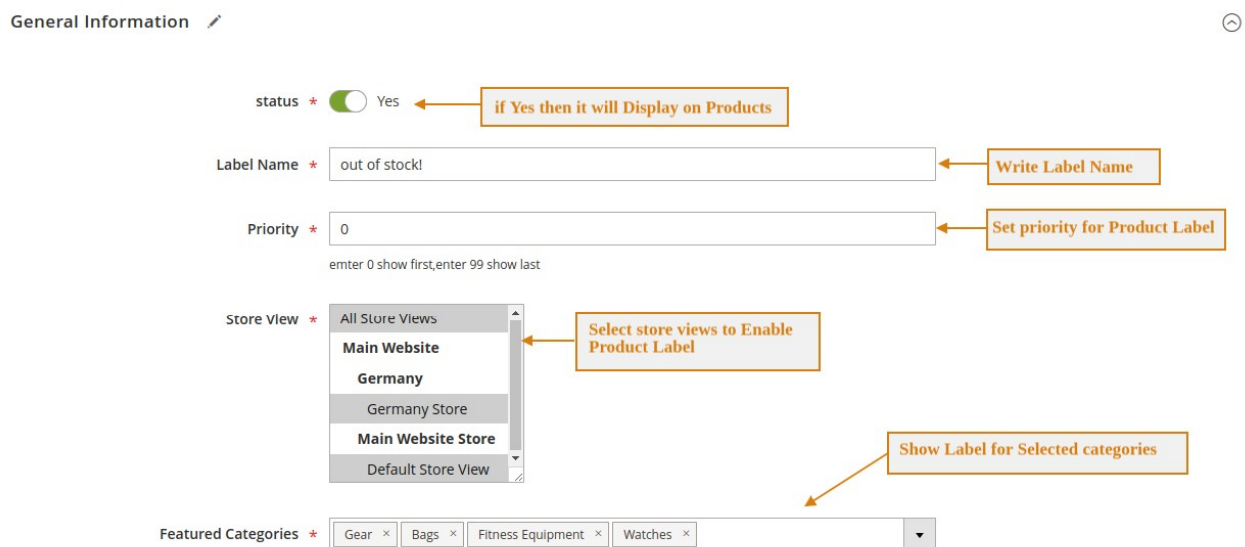

After clicking on the Product Label menu option, the admin will be redirected to the New Product Label as per the image is shown below.

Furthermore, the admin can :

- View the complete list of the Custom Product labels.
- Edit or delete the product labels by clicking on the **Select** link.
- Add new Product labels by clicking on the **Add New Label**.

Add New Label:

The screenshot shows the 'General Information' section of the 'Add New Label' form. It includes the following fields and annotations:

- status ***: A radio button is selected for 'Yes'. An annotation box says 'if Yes then it will Display on Products' with an arrow pointing to the 'Yes' option.
- Label Name ***: A text input field containing 'out of stock!'. An annotation box says 'Write Label Name' with an arrow pointing to the input field.
- Priority ***: A text input field containing '0'. An annotation box says 'Set priority for Product Label' with an arrow pointing to the input field. Below the field, it says 'enter 0 show first, enter 99 show last'.
- Store View ***: A dropdown menu is open, showing options: 'All Store Views', 'Main Website', 'Germany', 'Germany Store', 'Main Website Store', and 'Default Store View'. An annotation box says 'Select store views to Enable Product Label' with an arrow pointing to the dropdown.
- Featured Categories ***: A horizontal list of category tags: 'Gear', 'Bags', 'Fitness Equipment', and 'Watches'. An annotation box says 'Show Label for Selected categories' with an arrow pointing to the category tags.

The admin shall navigate to the **General information** page and click on the **Add New Label** button.

Further, the admin can set the configurations under General Information, like:

Status : Enable/disable the label.

Label Name : Enter the name of the Label.

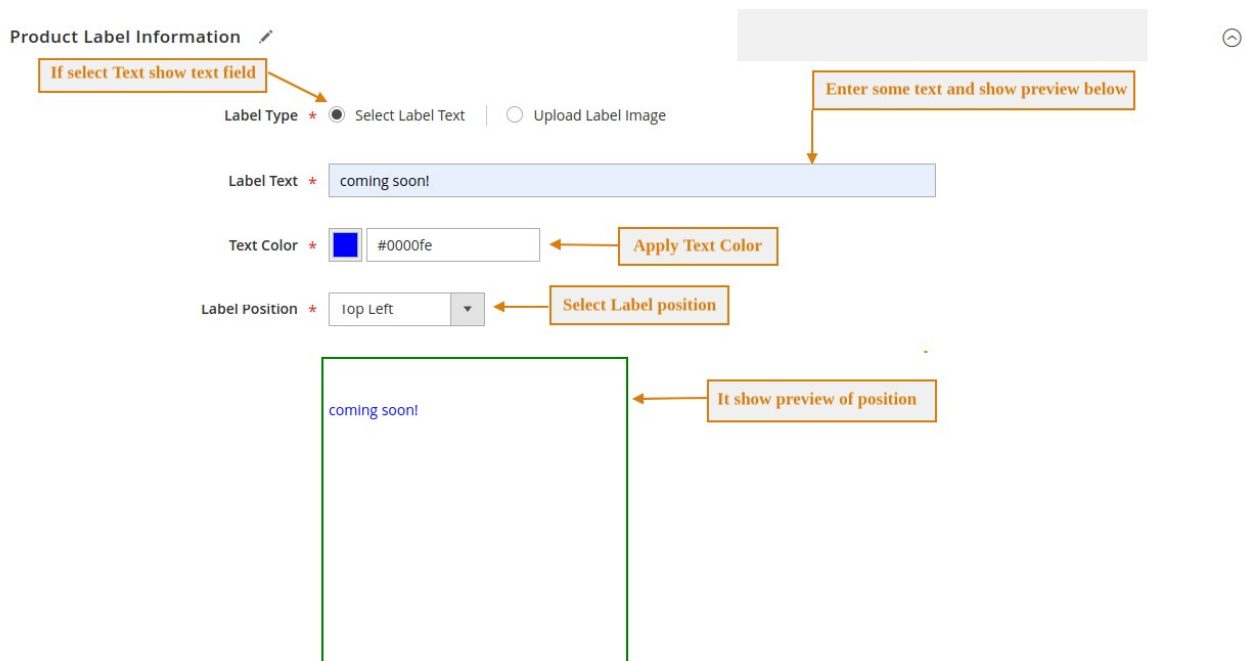

Priority : set priority 0 show first label, set 99 show at last.

Store view :Selected store views show product label.

Feature Categories : Selected categories show product label.

Step 5

After clicking on the Product Label Information open new section as per the image is shown below.

The screenshot shows the 'Product Label Information' form with the following fields and annotations:

- Label Type**: Radio buttons for 'Select Label Text' (selected) and 'Upload Label Image'. An annotation 'If select Text show text field' points to the 'Select Label Text' option.
- Label Text**: A text input field containing 'coming soon!'. An annotation 'Enter some text and show preview below' points to this field.
- Text Color**: A color picker showing a blue color with the hex code '#0000fe'. An annotation 'Apply Text Color' points to the color picker.
- Label Position**: A dropdown menu showing 'Top Left'. An annotation 'Select Label position' points to the dropdown.
- Preview**: A large rectangular area showing a preview of the label with the text 'coming soon!' in blue. An annotation 'It show preview of position' points to this area.

Label Type : you can select label text or label image.

Label Text : if you select text below show text field and color picker.

Text color :you can select text color and show preview in image.

Label Position :Select the position as - Top Left, Top-Right, Bottom-Left, Bottom-Right for displaying the label.

Step 6

If you select upload label image option show below image uploader field.

The screenshot shows a configuration interface for a label. At the top, there are two radio buttons: 'Select Label Text' (unselected) and 'Upload Label Image' (selected). A callout box points to the 'Upload Label Image' option with the text 'If select upload image option show image field'. Below this, there is a 'Your Image Field' section with 'Upload' and 'Select from Gallery' buttons. A callout box points to the 'Upload' button with the text 'Image upload from here'. Below the buttons, it says 'Maximum file size: 2 MB. Allowed file types: JPG, PNG.' A preview of the selected image, 'Images_10.png' (217x232, 9 KB), is shown. A callout box points to this preview with the text 'Show Image Preview'. Below the preview is a 'Label Position' dropdown menu set to 'Top Right'. A callout box points to this dropdown with the text 'Select Image Position'. At the bottom, a larger preview area shows the 'LIMITED STOCK' label in the top-right corner of a white box. A callout box points to this label with the text 'Selected position show image preview'.

Upload Label Image : if you select upload label image option below show image preview.

Image field :upload your product label image.

Label Position :Select the position as - Top Left, Top-Right, Bottom-Left, Bottom-Right for displaying the label.

Step 7

After clicking on the Product Label Conditions open new section as per the image is shown below.

The image shows a form for configuring Product Label Conditions. It includes four fields with dropdown menus and explanatory callouts:

- Customer Group ***: A dropdown menu with options: NOT LOGGED IN, General, Wholesale, Retailer, abcd. An annotation box points to it with the text: "Select customer groups to Enable Product Label".
- Stock Status ***: A dropdown menu with the selected option "Out Of Stock". An annotation box points to it with the text: "The product which is out of stock will show the label".
- Is New ***: A dropdown menu with the selected option "No". An annotation box points to it with the text: "Set is new Yes/No use with 'IS NEW' condition to Display Product Label".
- On Sale ***: A dropdown menu with the selected option "No". An annotation box points to it with the text: "Set on sale Yes/No use with 'ON SALE' condition to Display Product Label".

Customer Group :selected groups show Product Label.

Stock Status :You can select out of stock,in stock,and does not matter option.

Is New :if select Yes show only New products label.

On Sale :if select Yes show only Sale products label.

Note :Using stock status, is New and on Sale create multiple conditions.

Note:The admin can assign only one label at a time on the product.

Step 8

In Product Specific Product Label :

To Configure product specific enable and then go to **Catalog -> products -> Click any product -> Select Product Label -> YES/NO**

Design	⌵
Schedule Design Update	⌵
Gift Options	⌵
