

## ↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

### Step 1

Extract downloaded extension package in your magento root folder using FTP (File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app, bin, lib, phpserver and vendor etc.

### Step 2

Next Need to run some magento commands to install extension in your system, so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

### Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

**Hey !! You Installed Extension Successfully Now it's time to Configure Extension.**

## **About the Extension:**

Magecurious Delhivery Extension is an Indian shipping solution that works with the Indian postal code system. This module calculates Delhivery shipping rates automatically based on the Pincode and product weight. It assigns a tracking number as soon as the admin ships the product. The admin can also create shipping labels and manifests in PDF format.

Delhivery Shipping, a popular shipping and logistics platform, supports integration with various eCommerce platforms and marketplaces. Webkul Marketplace, being a widely used marketplace extension for platforms like Magento, WooCommerce, and others, has its ecosystem of extensions and integrations.

Delhivery is a prominent logistics and shipping service provider in India, offering extensive domestic and international shipping solutions. Integrating Delhivery with Magento 2 involves using APIs provided by Delhivery to automate shipping label generation, tracking updates, and order fulfilment.

Webkul Marketplace allows businesses to convert their single-vendor eCommerce store into a multi-vendor marketplace. This means multiple sellers can register on the platform and sell their products.

### **1. Magento 2 Delhivery Shipping is compatible with the webkul marketplace**

- We have integrated the Delhivery shipping extension with the Webkul Marketplace.
- Webkul Marketplace is a platform designed to facilitate eCommerce businesses by enabling them to operate multi-vendor marketplaces.

### **2. Shipment and pickup are created easily from the seller panel**

- Sellers should be able to generate shipping labels for their shipments.

- Real-time tracking information should be accessible to sellers and customers alike.
- Sellers should be able to initiate pickup requests for their packages directly through the panel.
- Admin creates its pickup location.
- Admin manages their pickup location easily.

### **3. The seller can use their delivery shipping credential from the seller panel**

- The seller panel should have a user-friendly interface that guides sellers through the process of creating shipments and scheduling pickups intuitively.
- They manage their Product listings, and orders through a dedicated seller dashboard provided by Webkul.
- Each seller can create and manage their product listings independently.

### **Features of Magento Delivery Extension:**

- It works on the Indian Postal Code system
- More than 13000 pin codes are serviceable.
- Automatically Calculates rates according to the pin code and product weight.
- Automatically Generate Tracking number.
- Shipping label, having the barcode, can be printed and Download.
- Admin And Customer Both Track The shipment Order.
- After Order syncs It Show On Delivery Dashboard.

## ↳ Module configuration

Admin can Enable the Delhivery shipping method by going to the **Stores > Configuration > Sales > Delivery Methods > Delhivery Configuration.**

### Delhivery Configuration
