

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1 :

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2 :

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

The **Magento 2 PhonePe Payment Extension** allows customers to make payments using PhonePe, one of India's leading digital payment platforms. - Compatible With Magento 2.4.7
- Refund Management

Transform your online store with the Phonepe extension and provide a superior Payment Option To Your Customers that keeps customers coming back.

➤ How to Configure Extension

Step 1: Configuration

Go to Stores > Configuration > Sales > Payment Methods and find the "PhonePe Payment" section.

The screenshot shows the Magento 2 configuration interface for the PhonePe Payment extension. The left sidebar is expanded to 'Payment Methods'. The main content area shows the 'PhonePe Payment' configuration form with the following fields and annotations:

- Enable (website):** Set to 'Yes' (Annotation: Enable The Extension)
- Title (store view):** Set to 'PhonePe Payment' (Annotation: Enter Payment Method Title)
- Merchant ID (store view):** (Annotation: Enter Merchant ID)
- Merchant User ID (store view):** (Annotation: Enter User ID)
- Merchant Transaction ID (store view):** (Annotation: Enter Merchant Transaction ID)
- API Key (store view):** (Annotation: Enter API Key)
- Environment (store view):** Set to 'Sandbox' (Annotation: Select Sandbox Here)

Below the main form, there are radio button options for 'Zero Subtotal Checkout', 'Check / Money Order', and 'Bank Transfer Payment'.

Enabled: Set to "Yes" to enable the payment method.

Title: Customize the payment method title displayed to customers.

Merchant ID: Enter your PhonePe Merchant ID.

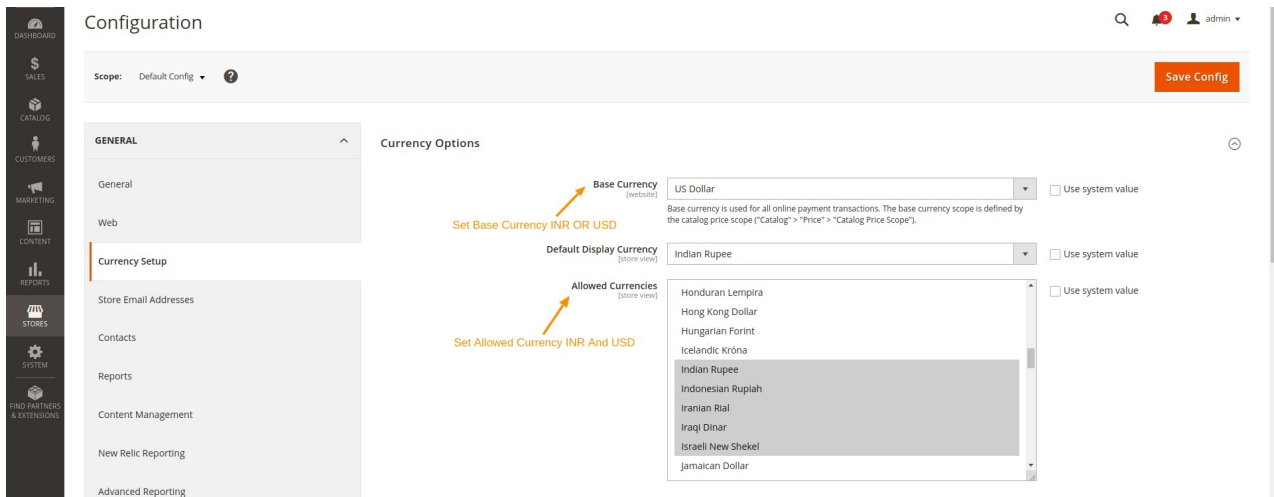

Merchant Transaction ID: Enter your PhonePe **Merchant Transaction ID**.

API Key: Enter your PhonePe API key.

Environment: Choose Sandbox for live transactions.

Step 2: Currency Configuration

Go to Stores > Configuration > General > and find the "Currency Setup" section And Currency Options.

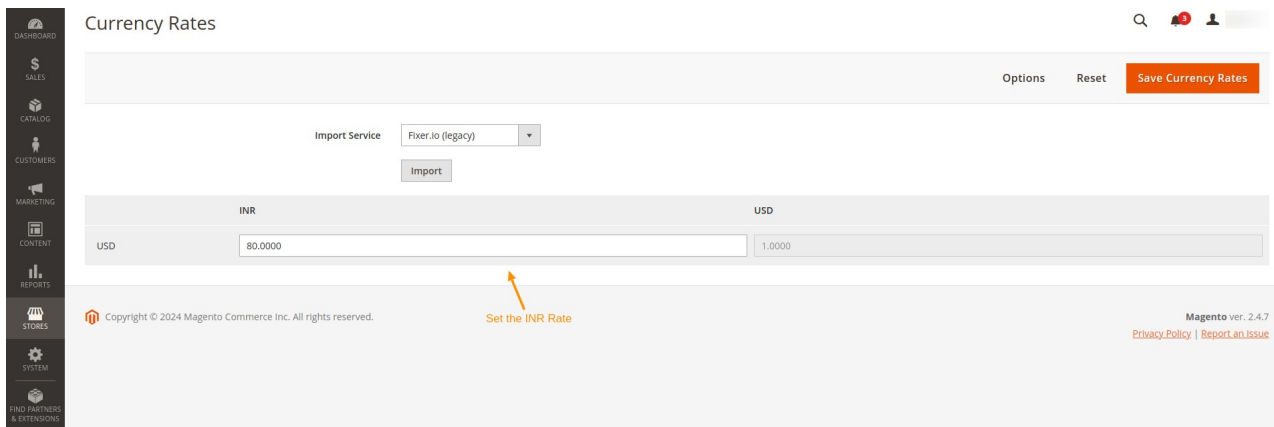

The screenshot shows the 'Currency Options' configuration page. The 'Base Currency' dropdown is set to 'US Dollar'. The 'Default Display Currency' dropdown is set to 'Indian Rupee'. The 'Allowed Currencies' list includes 'Indian Rupee' and 'US Dollar'. Annotations with arrows point to these fields with the text 'Set Base Currency INR OR USD' and 'Set Allowed Currency INR And USD'.

Base Currency : Set Base Currency As a USD Or INR.

Allowed Currencies : Select USD And INR.

Set the INR Rate : Go to Stores > Currency Rates > And Set the INR Currency Rate.

The screenshot shows the 'Currency Rates' configuration page. The 'Import Service' is set to 'Fixer.io (legacy)'. The 'INR' rate for 'USD' is set to '80.0000'. An annotation with an arrow points to this field with the text 'Set the INR Rate'.

Step 3: Frontend Configuration

Add Product to Cart:

- Go to the frontend of your Magento store and add any product to your cart.

Proceed to Checkout:

- Navigate to the checkout page where you will see available payment methods.

Select PhonePe Payment:

- Choose the PhonePe payment method from the list of available options.

Place Order:

- When Customer Click On "Place Order." Than Order status Set as A "Pending Payment" and You will be redirected to the PhonePe payment gateway.

Complete Payment:

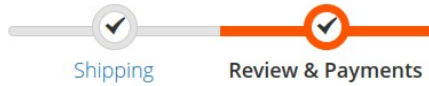

- On the PhonePe payment gateway, the customer can pay using multiple options such as UPI, Card, or Bank Transfer.

Confirmation:

- Once the payment is successfully completed The Order Status Change To "Processing" , The customer will be redirected back to the Magento store with an order confirmation.

Refund Process :

1. **Order Return Request:**

- The customer initiates a return request for an order that was paid using PhonePe.

2. **Admin Generates Invoice:**

- The admin first needs to generate an invoice.
- Click on the **Invoice** button to generate the invoice.

3. **Admin Generates Credit Memo:**

- After the invoice is generated, the admin can proceed to create a credit memo to process the refund.
- Go to the same order details page in the Magento Admin panel.
- Click on the **Credit Memo** button.
- Review the items and amounts to be refunded and adjust if necessary.
- Click on the **Refund** button to generate the credit memo.

4. **PhonePe Refund API Call:**

- Upon generating the credit memo, the PhonePe refund API is automatically called by the extension.
- The API processes the refund online, sending the amount back to the customer through the original payment method used via PhonePe.

5. **Order Status Update:**

- The order status updates and reflects the refund process message.

✓ Refund processed successfully.

✓ You created the credit memo.
