

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

The Magento 2 Coupon List module enhances the front-end experience by displaying all available coupons on both cart and payment pages. It shows coupons based on cart conditions and provides a clear view, easy copying, and simple application of coupon codes

Features of Magento Navigate Orders Extension:

- Show coupon codes on both cart and payment pages based on cart conditions.
- Guests/customers can see all available coupons.
- Support for both slide and popup display options.
- Users can view detailed information about each coupon on the cart and payment pages.
- Provide a "Copy Code" button for easy copying of coupon codes.
- "Apply Coupon" button for quick application of coupon codes.
- Compatible with Magento 2.4.7

↳ Module configuration

Admin can enable the module, navigate to **Stores > Configuration > Magecurious > Coupon List** and set the configuration to enable the module

↳ Front-end Functionality:

Displaying Coupon List on Cart page:

Shopping Cart

Item	Price	Qty	Subtotal
 Didi Sport Watch	\$1.10	1	\$1.10

Apply Discount Code ^

Enter discount code

Update Shopping Cart

Available Coupons

TEST

Test
Use promo code Test at checkout
Valid Until: 2024-11-28

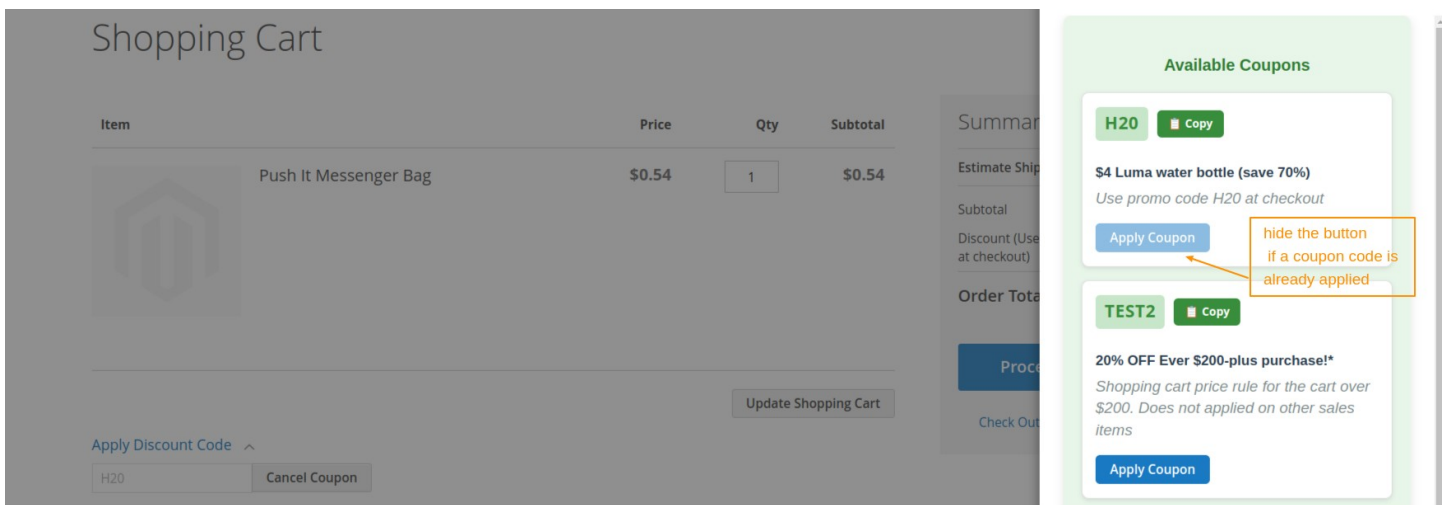

Unavailable Coupons

H20
\$4 Luma water bottle (save 70%)
Use promo code H20 at checkout

TEST2
20% OFF Ever \$200-plus purchase!*

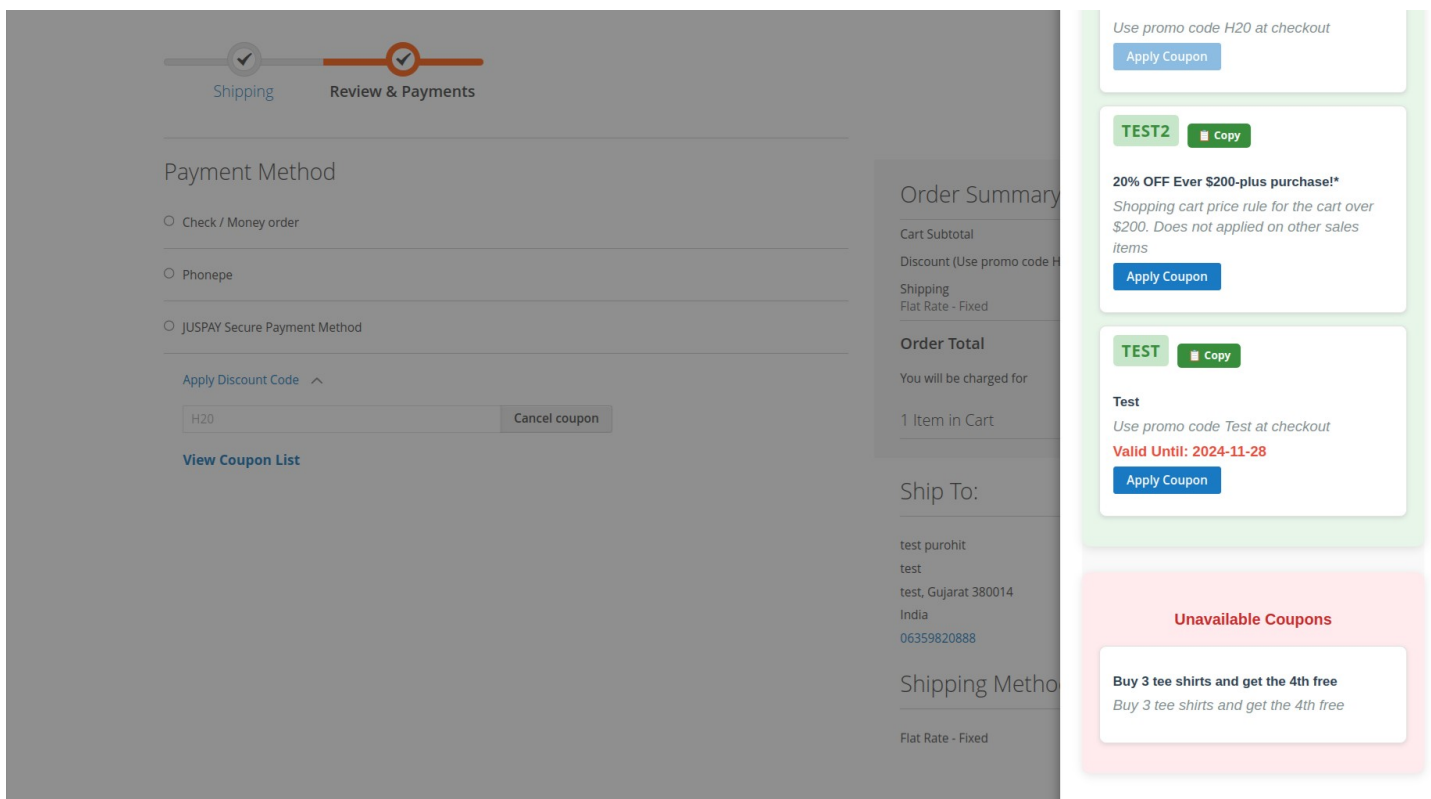

Clicking on the 'View Coupon List' displays all available coupons and unavailable coupons, showing which ones are eligible or not. It provides a clear view with a 'Copy Code' button to copy the coupon code and an 'Apply Coupon Code' button to apply it.

Hide the button if a coupon code is already applied:

When a coupon code is already applied, the 'Apply Coupon Code' button is hidden in model.

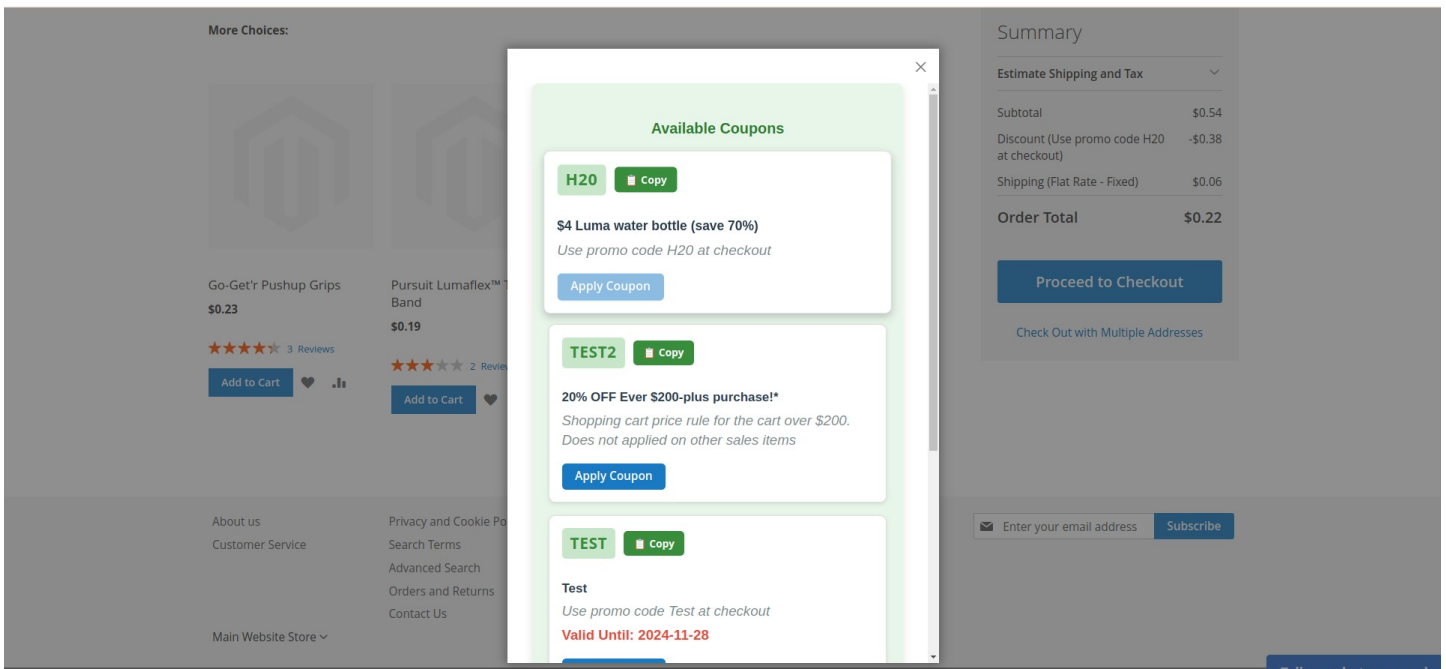

Displaying the Coupon List on the Checkout page:

The screenshot displays the checkout page with a progress bar at the top showing 'Shipping' and 'Review & Payments' (the current step). The 'Payment Method' section includes options for 'Check / Money order', 'Phonepe', and 'JUSPAY Secure Payment Method'. Below this is the 'Apply Discount Code' section with a text input field containing 'H20' and a 'Cancel coupon' button. A 'View Coupon List' link is positioned below the input field. The 'Order Summary' section on the right shows 'Cart Subtotal', 'Discount (Use promo code H20)', 'Shipping Flat Rate - Fixed', and 'Order Total'. Below the order summary is the 'Ship To' address: 'test purohit, test, Gujarat 380014, India, 06359820888'. The 'Shipping Method' is 'Flat Rate - Fixed'. On the far right, a sidebar displays a list of coupons: 'Use promo code H20 at checkout' with an 'Apply Coupon' button; 'TEST2' with a 'Copy' button and a '20% OFF Ever \$200-plus purchase!' rule; 'TEST' with a 'Copy' button and a 'Use promo code Test at checkout' rule with a 'Valid Until: 2024-11-28' expiration date; and an 'Unavailable Coupons' section with a 'Buy 3 tee shirts and get the 4th free' offer.

Displaying the Coupon List on the Checkout page allows customers to view all available coupons and easily apply or copy coupon codes

Set Coupon Modal Type :

In the back-end configuration, set the **Coupon Modal Type** to determine the display style: select 'Popup' to show the coupon list in a modal popup, or 'Slide' to display it as a sliding modal
