

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP (File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app, bin, lib, phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system, so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

If your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

"The Sticky Product Quick Add to Cart module enhances the product view page by providing a sticky bar that allows users to easily add products to the cart and adjust the product quantity with convenient increment and decrement controls."

Features of Magento 2 Sticky Product Quick Add to Cart Extension:

- **Sticky Position Customization:** Choose the position for the sticky product info section — either **Top** or **Bottom** for vertical placement, and **Left** or **Right** for horizontal alignment.
- **Dynamic Add to Cart Functionality:** Add products to the cart directly from the sticky section without leaving the product view page.
- **Quantity Controls:** Increment or decrement product quantities easily within the sticky product info section.
- **Background Color Customization:** Set a custom background color to match your store's theme for the sticky product info section.
- **Customizable Button Colors:** Configure the color of the sticky "Add to Cart" button for better visibility and branding.
- **Product Name Color Settings:** Set a distinct color for the product name to enhance readability.

- **Product Price Color Settings:** Customize the product price color to highlight pricing information.

This extension ensures a seamless shopping experience by keeping essential product actions readily accessible and visually appealing.

↳ How to Configure Extension

Step 1 : Configuration

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> StickyAddtoCart**
