

## ↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

### **Step 1 :**

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

### **Step 2 :**

Next Need to run some magento commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : `cd /var/www/html/magento243`) and run below commands one by one.

- `php bin/magento setup:upgrade`
- `php bin/magento setup:static-content:deploy-f`
- `php bin/magento indexer:reindex`
- `php bin/magento cache:clean`
- `php bin/magento cache:flush`
- `chmod-R 777 var/ pub/ generated/`

### **Step 3**

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

**Hey !! You Installed Extension Successfully Now it's time to Configure Extension.**

## About the Extension:

The **Add to Cart with Popup** extension is designed to elevate your customer's shopping experience. When users click the "Add to Cart" button, the product is added to a popup that functions like a mini cart, providing a seamless and convenient shopping process. The popup also displays recommended and suggested products, encouraging further purchases and improving overall user satisfaction.

## Features of Magento 2 Add to Cart With Popup Extension:

- **Mini Cart Functionality:** Instantly view and manage items added to the cart within a popup.
- **Recommended and Suggested Products:** Boost sales by showcasing products tailored to the user's interests.
- **Customizable Admin Settings:** Admins can easily select which products to display in the popup, including best sellers, latest arrivals, random products, and category-specific items.
- **Enhanced User Experience:** Streamline the shopping process and increase conversion rates with an intuitive, user-friendly interface.

Transform your online store with the Add to Cart with Popup extension and provide a superior shopping experience that keeps customers coming back.

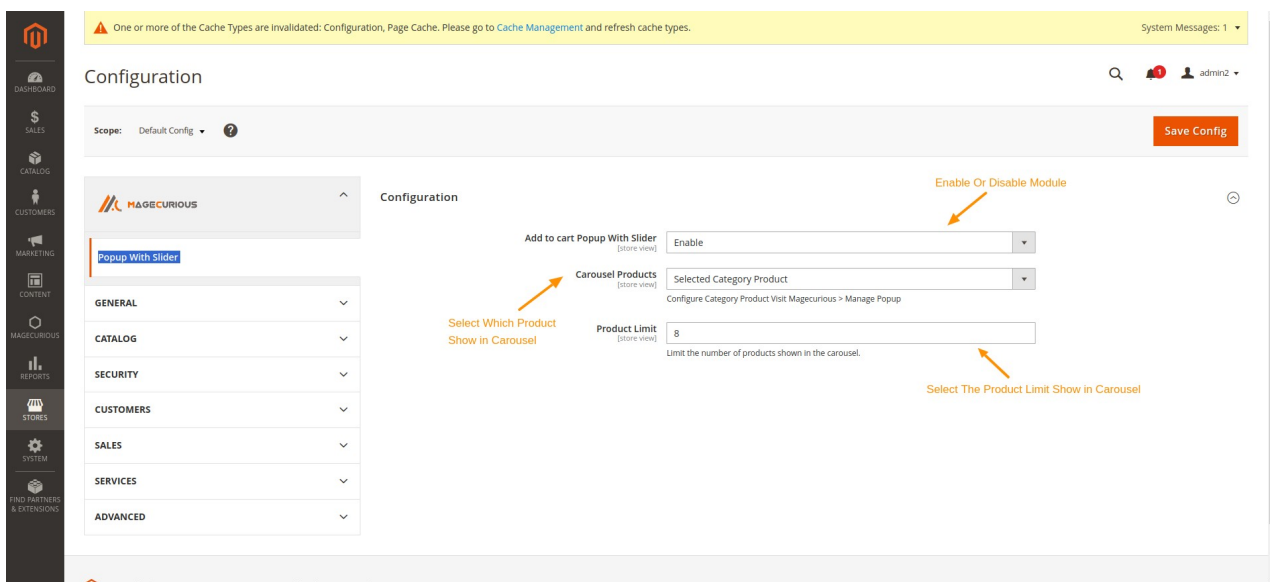

## ➤ How to Configure Extension

### Step 1: Configuration

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> Popup With Slider**

### Configuration:

**Enable Popup With Slider:** Select Yes To Enable Module And Select No For Disable Module.

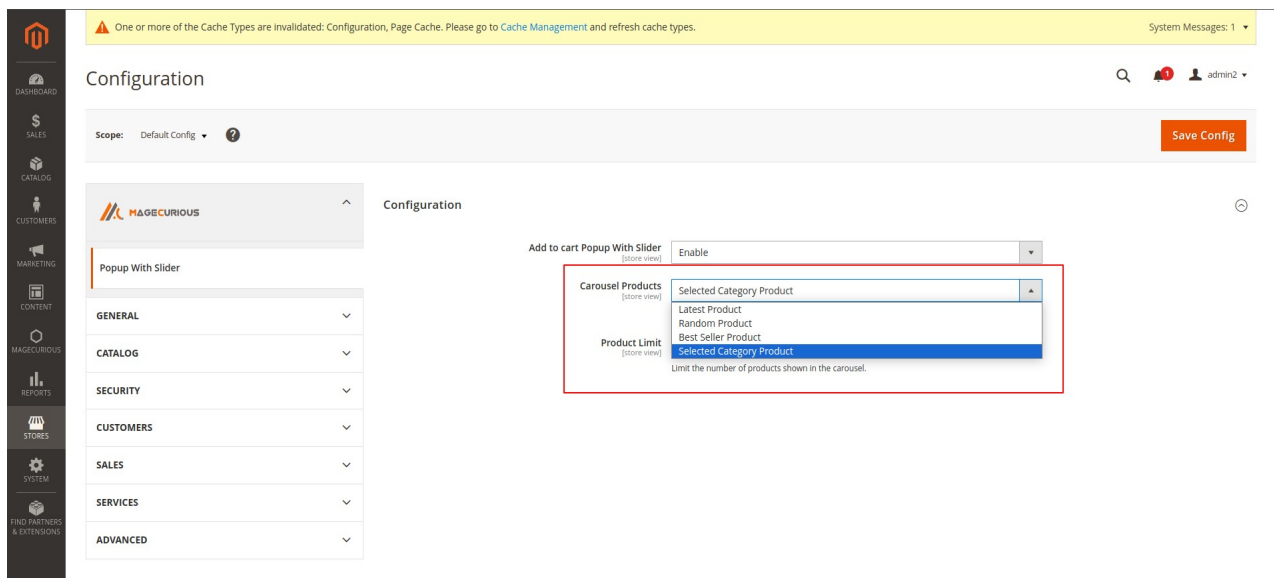

The screenshot shows the configuration interface for the 'Popup With Slider' extension. The page title is 'Configuration' and the scope is 'Default Config'. A 'Save Config' button is visible in the top right. The configuration options are as follows:

Field Name	Value	Annotation
Add to cart Popup With Slider (store view)	Enable	Enable Or Disable Module
Carousel Products (store view)	Selected Category Product	Select Which Product Show in Carousel
Product Limit (store view)	8	Select The Product Limit Show in Carousel

Additional text on the page includes: 'Configure Category Product Visit Magecurious > Manage Popup' and 'Limit the number of products shown in the carousel.' A sidebar on the left contains navigation links for various modules like Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions.

## Step 2: Types Of Carousel Products

- Random Products
- Best Seller Products
- Latest Products
- Selected Category Products

**Random Products** : Random Products Show in Product Carousel.

**Latest Products** : Latest Products Show in Carousel.

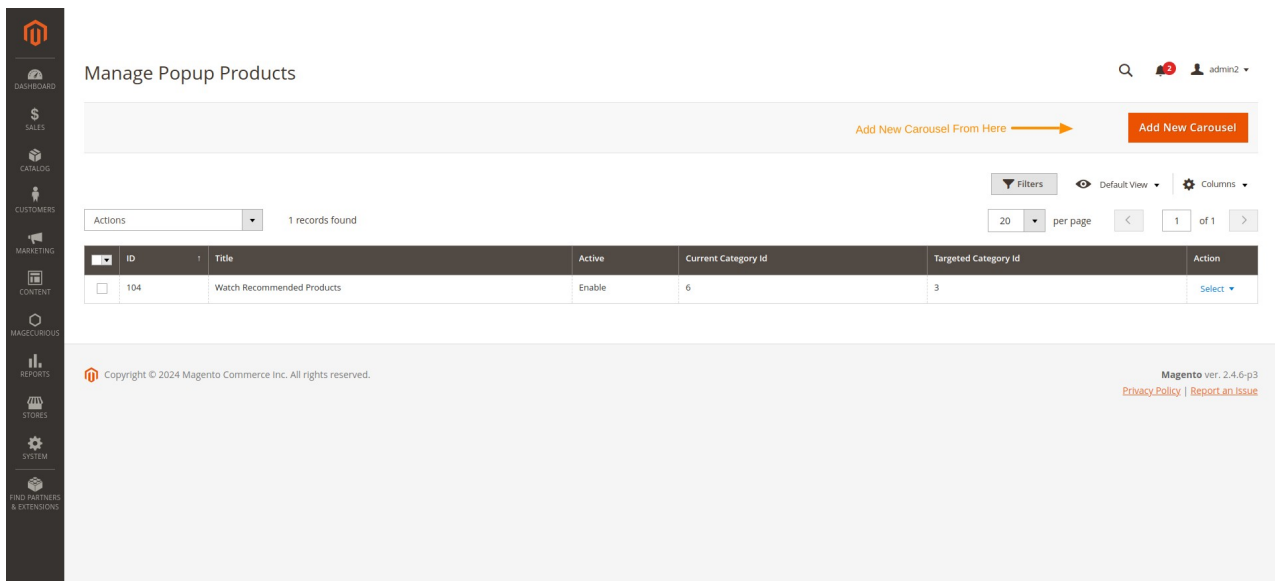

**Best Seller Products** : Best Selling Products Show in Carousel.

**Selected Category Products :** Admin Selected Category Products Show in Carousel.

➤ **Configuration Of Selected Category Products :**

Admin Need to Select the Category For showing that Category Products In Carousel.

Ex : When User Add To Cart From Bags Than show Watches In Carousel Products.
