

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP(File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app,bin,lib,phpserver and vendor etc.

Step 2

Next Need to run some mageno commands to install extension in your system , so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

if your all commands run successfully than login to your system Admin Panel and goto Store > Configuration , if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

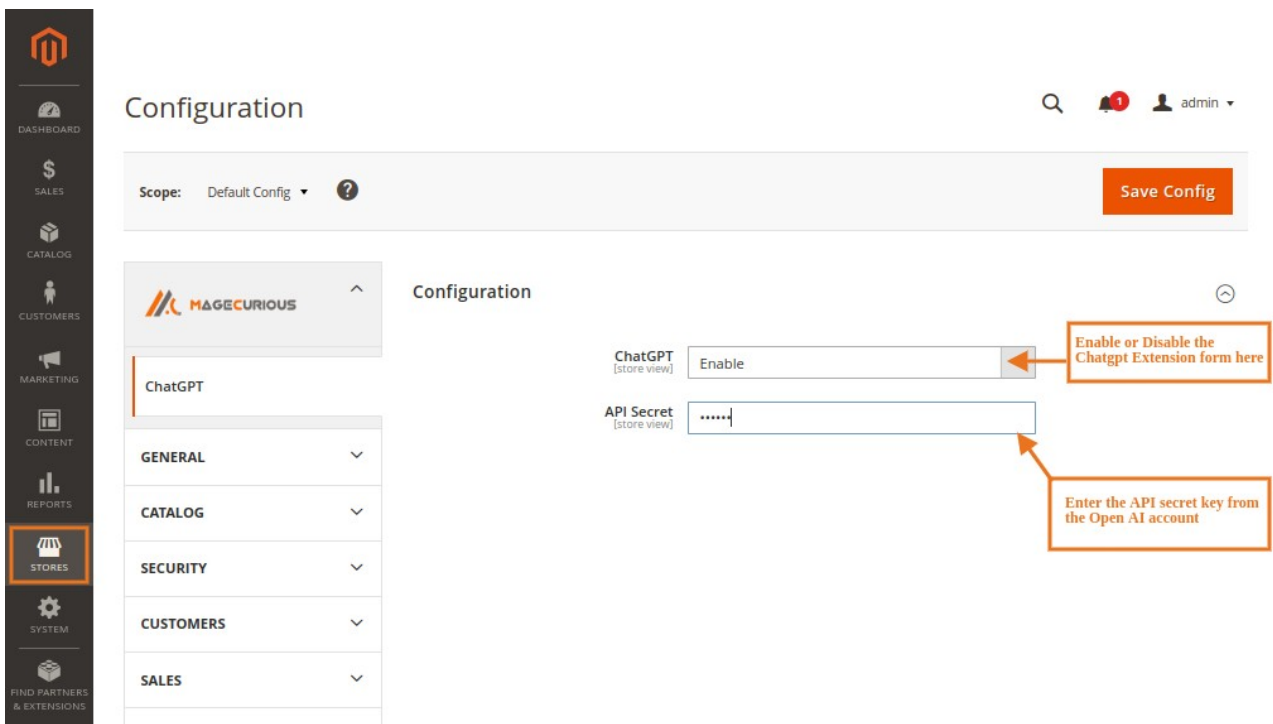

↳ How to Configure Extension

Step 1

To Configure Extension to **Stores -> Settings -> Configuration -> Magecurious -> ChatGPT Tab -> Configuration**

Step 2

In ChatGPT Configuration:

Configuration

Scope: Default Config ? Save Config

Configuration

ChatGPT [store view] Enable Enable or Disable the Chatgpt Extension form here

API Secret [store view] Enter the API secret key from the Open AI account

Enable Extension : Enable or disable the ChatGPT extension.

API Secret : Enter the API secret key from the Open AI account.

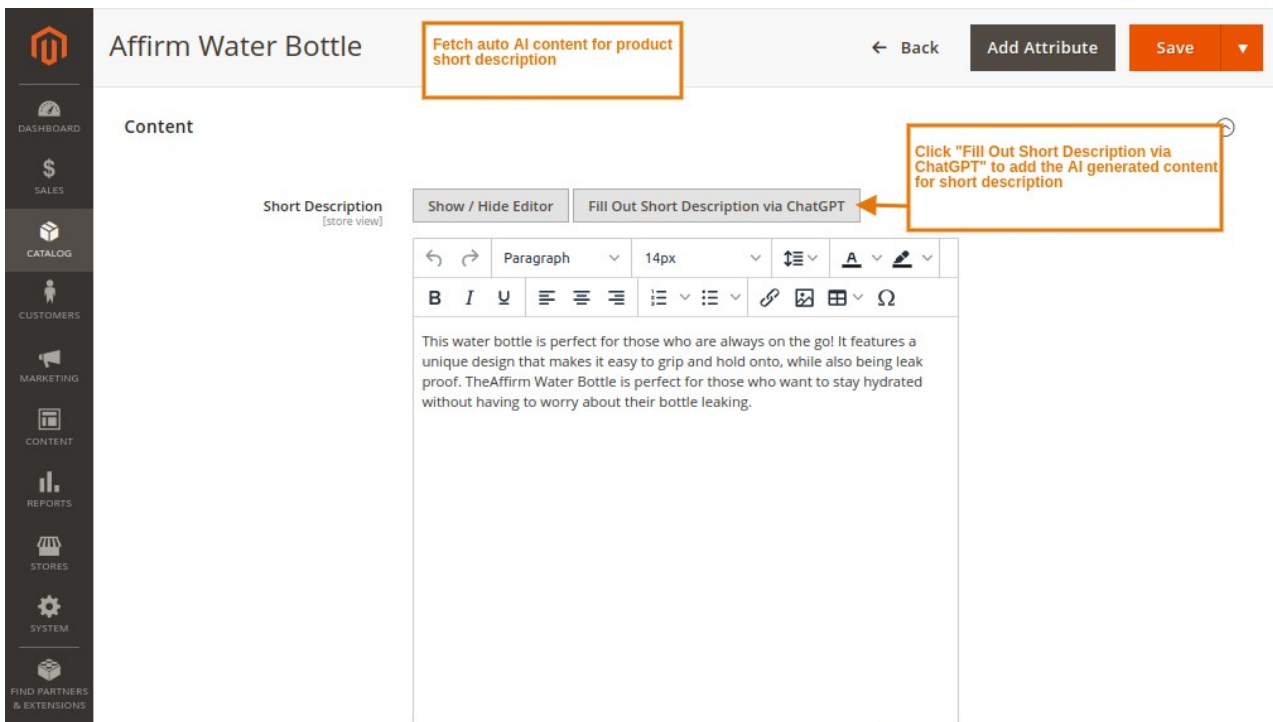

Step 3

Fill AI Content for Short Description :

-> Move to **Catalog -> Products**, select a product and click Go to the **Content** tab and click **Description** field.

-> Click “**Fill Out Short Description Via ChatGPT**” to automatically fill content based on the product.

-> **Fill Out Short Description Via ChatGPT** : click this button to generate the **Short Description** based **product name**. The content the text area.

The screenshot shows the Magecurious admin interface for editing the 'Affirm Water Bottle' product. The 'Content' tab is selected, and the 'Short Description' field is highlighted. A callout box points to the 'Fill Out Short Description via ChatGPT' button, with another callout box pointing to the 'Fetch auto AI content for product short description' button. The text area contains the following description:

This water bottle is perfect for those who are always on the go! It features a unique design that makes it easy to grip and hold onto, while also being leak proof. The Affirm Water Bottle is perfect for those who want to stay hydrated without having to worry about their bottle leaking.

Step 4

Fill AI Content for Description:

-> Click on **Catalog -> Products**, click on Edit, select the **Content tab** and **Description field**, hit **“Edit with Page Builder”**, and click on the **HTML** code under the **“Elements”** tab. The **“Fill Brief Description Via ChatGPT”** button is visible here.

-> **Fill Brief Description Via ChatGPT** : click this button to generate the Description based on the custom query In the text area, the content will automatically appear.

The screenshot shows the 'Edit HTML Code' dialog box. On the left is a sidebar with 'Elements' selected. The main area has a toolbar with buttons: 'Insert Widget...', 'Insert Image...', 'Insert Variable...', and 'Fill Brief Description via ChatGPT'. Below the toolbar is a text area containing the following text: 'A water bottle is an essential item for on-the-go hydration, whether you're hitting the gym, going for a run, or simply running errands. The Affirm water bottle is made with high-quality materials and is designed for durability and leak-proof performance. The bottle's double-wall construction keeps drinks cold for up to 24 hours and hot for up to 12 hours, making it the perfect choice for all day hydration. The Affirm water bottle also features a convenient carrying loop and a wide mouth for easy filling and cleaning.' Annotations include a box around the 'Fill Brief Description via ChatGPT' button and a box around the text area with an arrow pointing to the button. A 'Close' button and a 'Save' button are also visible in the top right corner of the dialog.

Step 5

Fill AI Content for Meta Title , Meta Keywords and Meta Description:

-> Move to **Catalog -> Products**, click to edit a product, move to **Search Engine Optimization** tab and you can see **“Bring AI Content”** button.

-> **Bring AI Content** : click this button to generate the **Meta Title / Meta Keywords / Meta Description** based on product Name.

The screenshot displays the 'Search Engine Optimization' configuration page for the 'Affirm Water Bottle' product. The page includes a sidebar with navigation options and a main content area with the following fields and buttons:

- URL Key** (store view): ?
- Create Permanent Redirect for old URL
- Meta Title** (store view):
- Bring AI Content** button
- Meta Keywords** (store view):
- Bring AI Content** button
- Meta Description** (store view):
- Maximum 255 chars. Meta Description should optimally be between 150-160 characters
- Bring AI Content** button

Callout boxes provide instructions: "Move to 'Search Engine Optimization' tab to Import meta title, meta keywords and meta description content using AI" and "Click 'Bring AI Content' button to fetch and add meta title, keywords and meta description automatically".

Step 6

Fill AI Content Category Pages :

-> Move to **Catalog** -> **Categories** -> **Needed category** -> **Content section Description** and click the button '**Edit with Page Builder**'.

-> **Fill Brief Description Via ChatGPT** : Click this button to generate the **Description** based on write the **custom query**, The content will fill out automatically in the text area.

The screenshot shows the 'Edit HTML Code' interface in the MageCurious Page Builder. On the left is a dark sidebar with a search bar and a list of elements: Layout, Row, Columns, Tabs, Elements (highlighted), Text, Heading, Buttons, Divider, HTML Code, Media, and Add Content. The main area has a title 'Edit HTML Code' and a close button. Below the title is a toolbar with buttons: 'Insert Widget...', 'Insert Image...', 'Insert Variable...', and 'Fill Brief Description via ChatGPT'. An orange callout box points to the 'Fill Brief Description via ChatGPT' button with the text: 'write the custom query and click on the "Fill Brief Description Via ChatGPT". The content will fill out automatically in the text area.' Above the toolbar, another orange callout box points to the 'Fetch auto AI content for category description' button with the text: 'Fetch auto AI content for category description'. Below the toolbar is a text area containing the following text: 'There are many product categories for men, but some of the most popular ones include clothing, shoes, accessories, and grooming products. Clothing options for men include everything from casual wear to formal wear, and there are many different styles and brands to choose from. Shoes are another popular category for men, and there are many different types of shoes available, from sneakers to dress shoes. Accessories can include everything from belts and ties to jewelry, and there are also many different types of grooming products available, from shaving creams to hair care products.'

Step 7

Fill AI content to Product Pages via Mass Action:

-> Move to **Catalog -> Products -> Action -> ChatGPT AI Content**

-> **Choose which section to Add ChatGPT AI content**

The screenshot displays the 'Products' management page in the MageCurious system. The interface includes a sidebar with navigation options like Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Find Partners & Extensions. The main content area shows a table of products with columns for Name, Type, Attribute Set, SKU, Price, Quantity, Salable Quantity, Visibility, Status, Websites, Last Updated At, and Action. A search bar at the top left contains the text 'Search by keyword'. A dropdown menu is open over the 'Actions' column, showing options such as 'Delete', 'Change status', 'Update attributes', 'Assign Inventory Source', 'Unassign Inventory Source', 'Transfer Inventory To Source', and 'ChatGPT AI content'. The 'ChatGPT AI content' option is expanded, revealing sub-options: 'Short Description', 'Description', 'Meta Title', 'Meta Keywords', and 'Meta Description'. A callout box with an arrow points to the 'ChatGPT AI content' option, containing the text: 'Facilitates content creation for multiple products at once through mass actions.'

Actions	Name	Type	Attribute Set	SKU	Price	Quantity	Salable Quantity	Visibility	Status	Websites	Last Updated At	Action
<input type="checkbox"/>	strive-shoulder-pack	Simple Product	Bag	24-MB04	\$32.00	100.0000	Default Stock: 100	Catalog, Search	Enabled	Main Website, Chatgpt	May 26, 2023 8:32:40 AM	Edit
