

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP (File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app, bin, lib, phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system, so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

If your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

Magento 2 Gemini AI-Powered Search brings intelligent, conversational search to your Magento 2 store by leveraging the capabilities of **Google Gemini AI**. It allows customers to search your store using **natural language** and receive smart, context-aware product suggestions, improving the shopping experience.

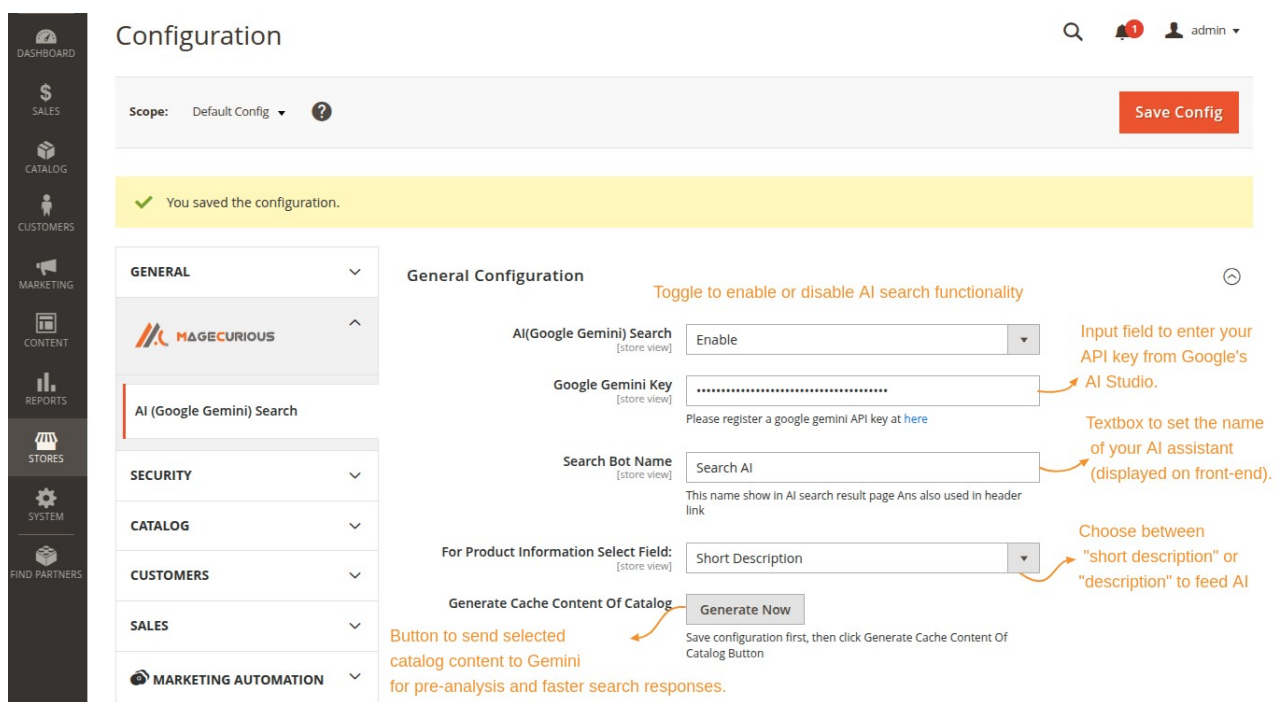

Features of Magento 2 Gemini AI-Powered Search Extension:

- Enable or disable the extension from the admin panel.
- **Google Gemini API Integration:** Seamlessly integrates Gemini AI to analyze your catalog and respond to user queries.
- **Custom Bot Name:** Set a unique AI assistant name visible in the header and search page (e.g., “Ask Genie”).
- **Product Info Selector:** Choose whether **short description** or **description** is sent to Gemini for catalog analysis.
- **Catalog Cache Generator:** Click-to-generate AI cache, preloading your product catalog data for optimized AI search.

↳ How to Configure Extension

Step 1 : Configuration

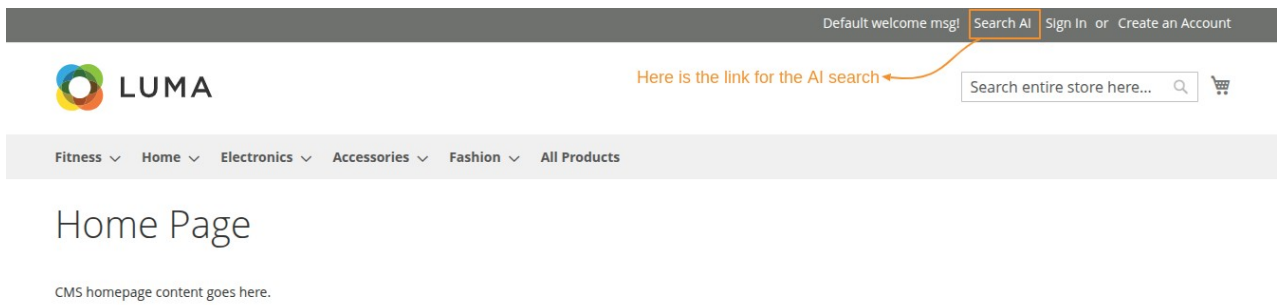

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> AI (Google Gemini) Search**

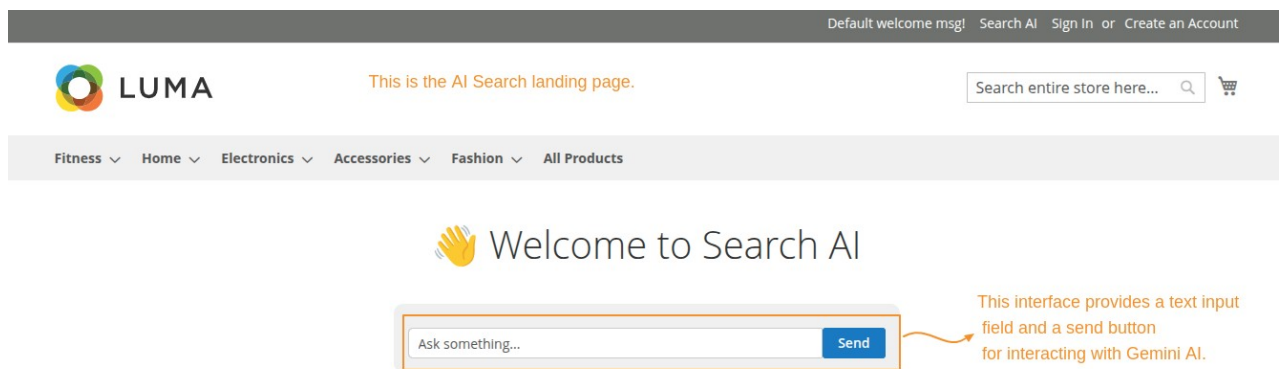

General Configuration

- **Enable AI (Google Gemini) Search:** Enable or disable AI search on the storefront.
- **Google Gemini Key:** Enter your API key from <https://aistudio.google.com/apikey>.
- **Search Bot Name:** Set a custom name for your AI assistant (e.g., “GemBot”).
- **For Product Information Select Field:** Choose between *short description* or *description* to feed Gemini.
- **Generate Cache Content Of Catalog:** Send your selected catalog data to Gemini AI for analysis.

- An AI Search link is added to the header section, directing users to the AI-powered search landing page.

- AI-powered search landing page.

- **Interact with AI-powered search bot**

 Welcome to Search AI

You: highest battery with longest os upgrade smartphone

Search AI:

Smartphones with the highest battery and longest OS upgrade

- [POCO X7 Pro 5G Product Link](#)

Ask something... [Send](#)

Based on your query, the AI returns a list of your store's products along with their respective links.

 Welcome to Search AI

You: Best camera smartphone

Search AI:

Best Camera Smartphones

- [Apple iPhone 16 Pro](#)
- [SAMSUNG Galaxy S24+ 5G](#)
- [vivo T3 Ultra](#)
- [Motorola Edge 50 Fusion](#)
- [Google Pixel 8a](#)
- [POCO X7 Pro 5G](#)
- [OPPO Reno 12 5G](#)
- [Motorola G85 5G](#)
- [realme P3x 5G](#)
- [vivo T3 Pro 5G](#)
- [OPPO K12x 5G](#)
- [POCO C75 5G](#)
- [Motorola g64 5G](#)
- [REDMI 13 5G](#)
- [Nothing Phone \(2a\) 5G](#)

Ask something... [Send](#)

The AI engine processes your product catalog and generates responses to your queries based on catalog data, including relevant product links.
