

↳ How to Install Extension

Once you placed the order you will receive link to download extension package in your email box.

You can also download extension package from your MyAccount > My Downloadable Products Section.

Step 1

Extract downloaded extension package in your magento root folder using FTP (File Transfer Protocol) Tools. For verification of root folder you can see some folders inside magento root folder like app, bin, lib, phpserver and vendor etc.

Step 2

Next Need to run some magento commands to install extension in your system, so connect with your server via SSH and go to magento root folder (e.g : cd /var/www/html/magento243) and run below commands one by one.

- php bin/magento setup:upgrade
- php bin/magento setup:static-content:deploy-f
- php bin/magento indexer:reindex
- php bin/magento cache:clean
- php bin/magento cache:flush
- chmod-R 777 var/ pub/ generated/

Step 3

If your all commands run successfully than login to your system Admin Panel and goto Store > Configuration, if you will see new Tab in left side bar with MageCurious Logo it means extension installed successfully.

Hey !! You Installed Extension Successfully Now it's time to Configure Extension.

About the Extension:

The **Magecurious TikTok Shop Module** is a powerful tool designed to seamlessly integrate your Magento store with TikTok's platform. This module simplifies the process of showcasing your products on TikTok by enabling you to generate a TikTok-compatible CSV file for bulk product uploads or synchronize your catalog directly with TikTok using API integration.

Whether you want to run TikTok ads, shopping campaigns, or tag products in videos, this module provides a convenient way to manage your product data and keep it updated. By automating tedious tasks, this module saves time and helps you reach a larger audience on one of the fastest-growing social media platforms.

Features of Magento 2 TiktokShop Extension:

1. CSV Generation:

- Automatically generate a TikTok-compatible CSV file containing product data from your Magento 2 store.

2. One-Click Download:

- Download the generated CSV file with a single click from the admin panel.

3. Bulk Product Management:

- Handle large inventories efficiently by including multiple products in a single CSV export.

4. Sync Button for Real-Time Catalog Updates and Upload

- Use the **Sync Products** button to update TikTok with your latest Magento product data.
- Ensures your TikTok catalog always reflects the latest changes in your Magento store, including prices, inventory, and product descriptions.

5. Integration with TikTok

- Supports integration using TikTok's App ID, App Secret, Business Center ID, and Catalog ID.
- Securely connects your Magento store to TikTok for seamless data transfer.

6. Simplified Workflow

- Manage product uploads and catalog synchronization from the Magento admin panel.
- Eliminate the need for manual data entry by leveraging automated tools.

7. Seamless Integration:

- Simplifies the process of connecting Magento product data with TikTok Shop.

8. Integration Ready:

- Compatible with TikTok's Catalog Manager, enabling faster synchronization.

↳ How to Configure Extension

Step 1 : Configuration

To Configure Extension go to **Stores -> Settings -> Configuration -> Magecurious -> TikTokShop**

Task "Image resize: /t/r/transparentcommunication.png": 1 Item(s) have been scheduled for update.

Configuration

Search 1 mehuldhapa

Scope: Default Config

Save Config

- GENERAL
- TikTok Shop
- SECURITY
- CATALOG
- CUSTOMERS
- SALES
- SERVICES
- ADVANCED

General Configuration

- Module Enable ← Module Enable/Disable
- Manual Sync ← Enable/Disable Manual Sync
- Auto Sync ← Enable/Disable Auto Sync

CSV Management

Generate CSV ← Download CSV

Click to generate a CSV file formatted for TikTok product uploads.
Note: You will need to manually upload this file to your TikTok Business Center.

Sync Catalog Products Management

- App ID ← Enter App ID
- App Secret ← Enter App Secret
- Business Center ID ← Enter Business Center ID
- Catalog ID ← Enter Catalog ID

Click to push your latest product data directly to TikTok via API.
Note: Make sure your TikTok API credentials are correctly configured, and use below URL in the TikTok app under "Advertiser Redirect URLs." It ensures proper redirection for your integration:
<http://1127.0.0.1/admin/tiktokshop/product/callback/>

← Sync All Products

Enable/Disable Module: Enable or Disable the TiktokShop Module. If set to "Yes," all features of the module will be enabled; otherwise, they will be disabled.

Enable/Disable Manual Sync: Enable or Disable the CSV Management section. Bydefault is disabled.

Enable/Disable Auto Sync: Enable or Disable the Sync Catalog Products Management section. Bydefault is enabled.

Generat CSV: Click on the "Generate CSV" button to create a CSV file containing your product data in a format compatible with TikTok.

Download CSV: Once the CSV file is successfully generated, a download option will be enabled in the admin panel.

Enter App ID: Enter the App ID associated with your TikTok application.

Enter App Secret: Enter the App Secret associated with your TikTok application.

Enter Business Center ID: Input your **TikTok Business Center ID**.

Enter Catalog ID: Input your **TikTok Catalog ID**.

Sync Products: Click the "**Sync Products**" button to synchronize your Magento product catalog with TikTok.

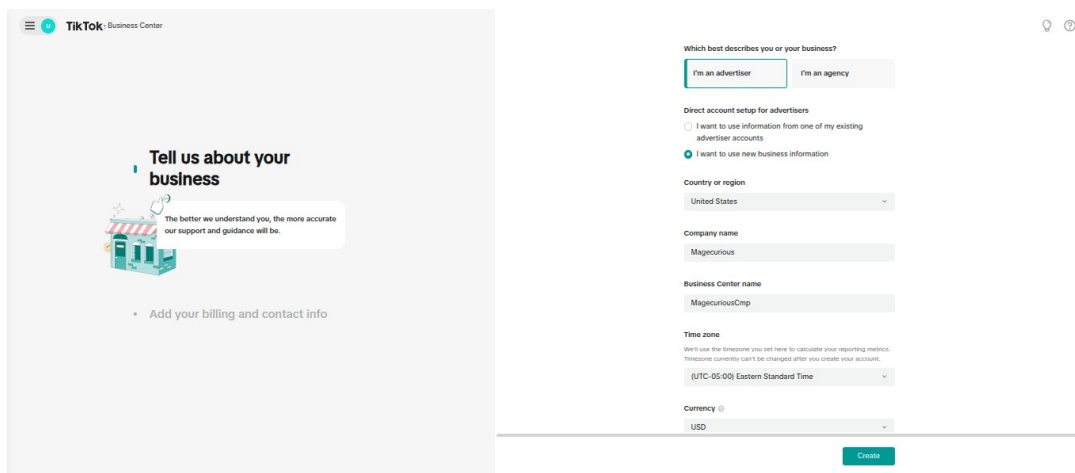

1. CSV Management :

1. This feature allows you to generate and manage a TikTok-compatible CSV file of your Magento store products.
2. This ensures you can easily upload your product catalog even without API integration.

Step 2 : How to Upload a CSV File to TikTok Catalog Manager

Step 1: Sign Up or Log In to TikTok Business Center

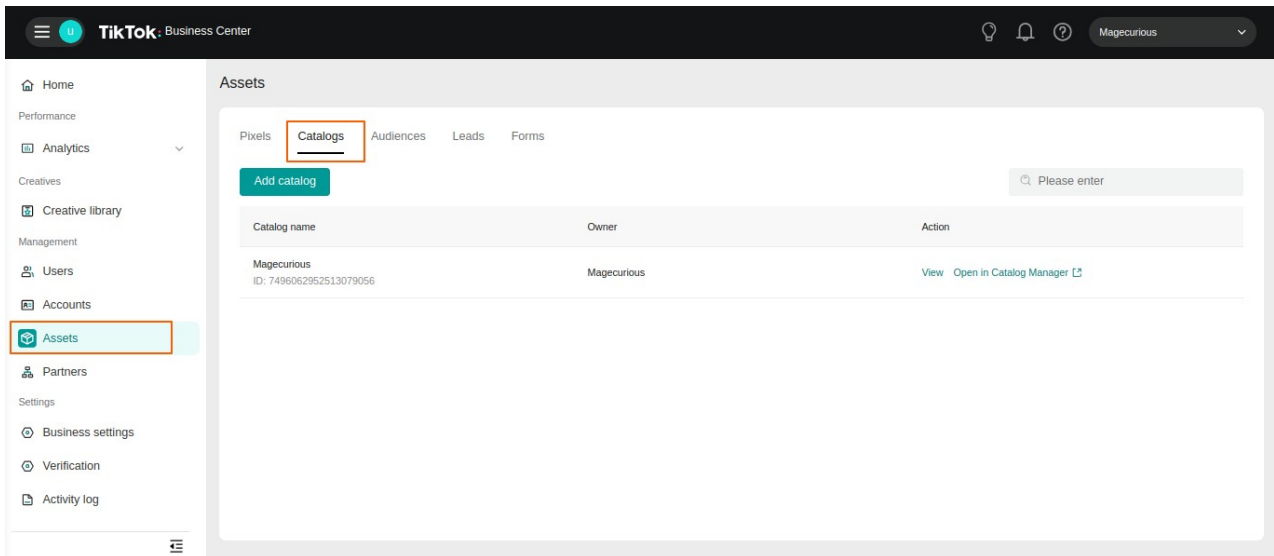

1. Go to the [TikTok Business Center](#).
2. If you're signing up or logging in with your TikTok Business account credentials for the first time, fill out the 'Tell Us About Your Business' details.

The screenshot shows the TikTok Business Center interface. On the left, there's a card titled "Tell us about your business" with a sub-headline "The better we understand you, the more accurate our support and guidance will be." and a button "Add your billing and contact info". On the right, there's a form titled "Which best describes you or your business?". The form has two radio buttons: "I'm an advertiser" (selected) and "I'm an agency". Below that, there's a section "Direct account setup for advertisers" with two radio buttons: "I want to use information from one of my existing advertiser accounts" and "I want to use new business information" (selected). The form also includes fields for "Country or region" (United States), "Company name" (Magecurious), "Business Center name" (MagecuriousCmp), "Time zone" (UTC-05:00 Eastern Standard Time), and "Currency" (USD). A "Create" button is at the bottom right.

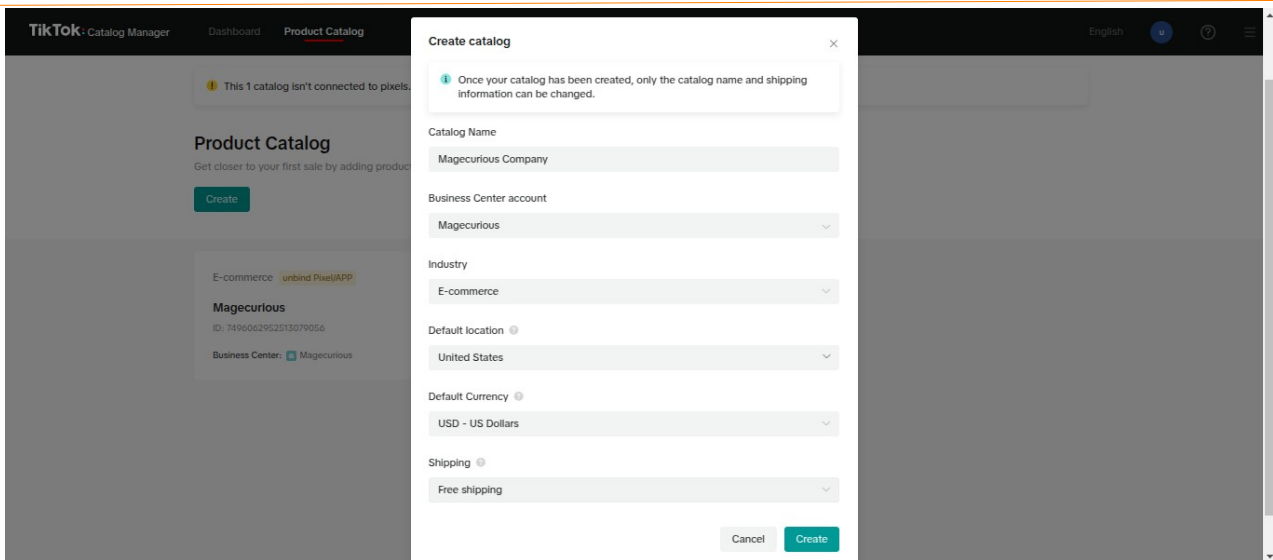

Step 2: Navigate to the Catalogs Section

1. Once you're logged in, you'll be directed to the TikTok Business Center dashboard.
2. Go to the **Assets** section in the left-side menu and click on **Catalogs**.

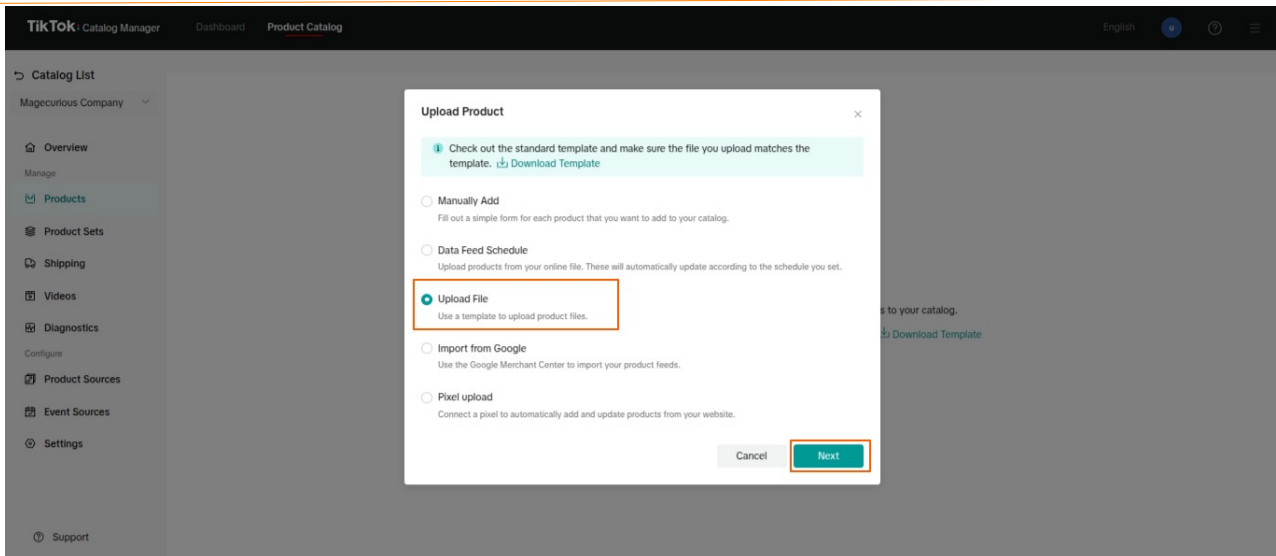

Step 3: Select or Create a Catalog

1. In the Catalogs dashboard, you can:
 - **Select an existing catalog** if you've already created one.
 - **Create a new catalog** by clicking on the **Add Catalog** button and filling out the required information (e.g., name, industry, etc.).
2. Once the catalog is selected or created, proceed to manage its contents.

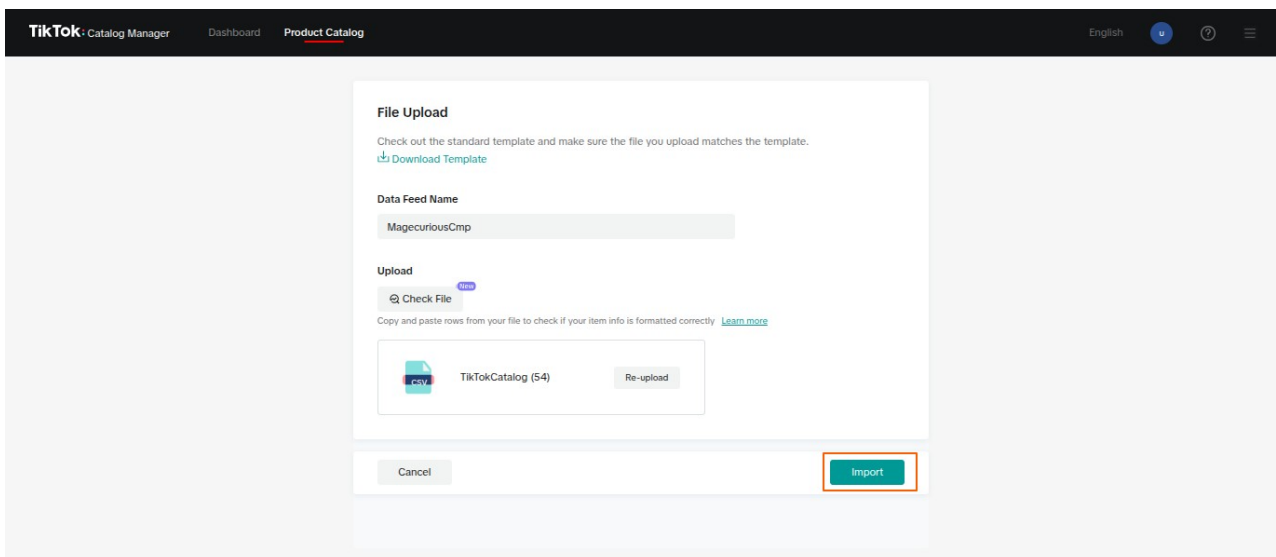

Step 4: Prepare to Upload

1. In the selected catalog, click on the **Product Sources** tab than click on **Add Products**.
2. Choose the **Upload File** option as your preferred data source.
3. Review TikTok's CSV format requirements to ensure the file generated by your Magecurious TiktokShop Extension meets their specifications.
4. Than click **Next** button.

Step 5: Upload the CSV File

1. Provide any necessary details, such as the data feed name, and set the update schedule if required (e.g., daily, weekly, or monthly).
2. Click on the **Upload File** button or drag and drop your CSV file into the upload area.
3. Click on the **Import** button.

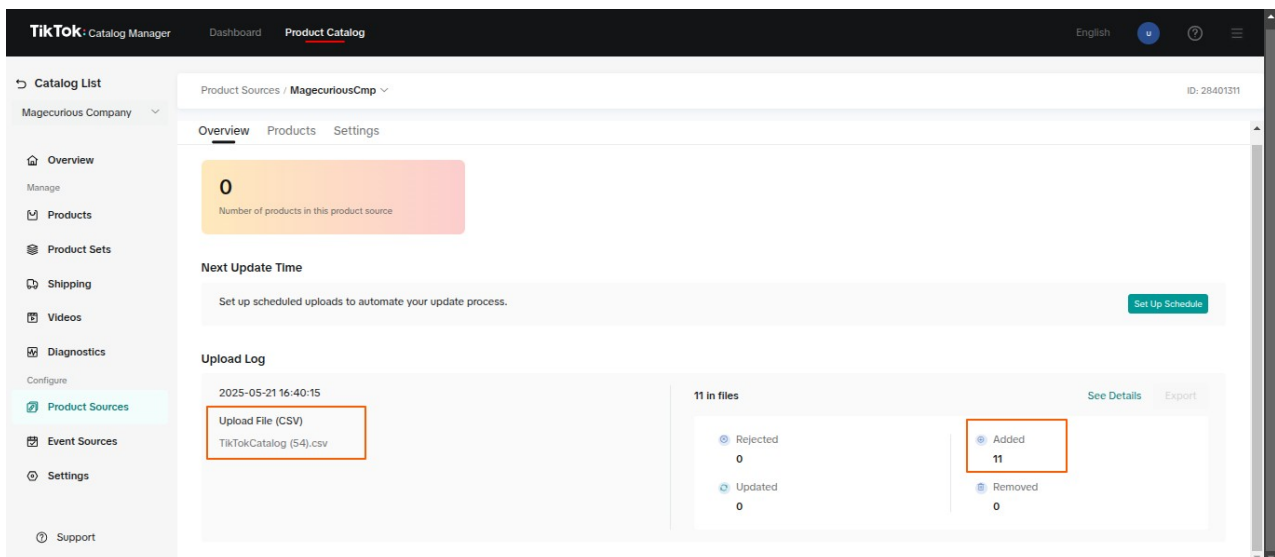

Step 6: Validate the CSV File

1. TikTok Catalog Manager will automatically validate your uploaded CSV file.
2. If there are errors:
 - Review the error messages provided.
 - Fix issues such as missing fields, incorrect formats, or unsupported values in the CSV file.
 - Regenerate the CSV using the Magecurious TiktokShop Extension and re-upload.

Step 7: Publish the Catalog

1. Once the file is successfully validated, TikTok will process your data.
2. After processing, the products in your CSV file will appear in your TikTok catalog.
3. You can now use these products for TikTok ads, product tagging in videos, or showcasing on TikTok Shop.
4. Looks like upload all csv products in Tiktok Catalog Product.

Step 8: Monitor and Update

1. Regularly monitor your catalog for any issues or updates.
2. Use the Magecurious TiktokShop Extension to generate updated CSV files as your inventory changes.
3. Re-upload the updated CSV files to ensure your TikTok catalog remains current.

2. Sync Catalog Products Management:

1. The Sync feature enables real-time product synchronization with TikTok Catalog Manager through API integration.
2. This eliminates the need for manual uploads and keeps your TikTok catalog up-to-date with minimal effort.

↳ How to Get App Id, App Secret, Business Id and Catalog Id

1. App ID and App Secret

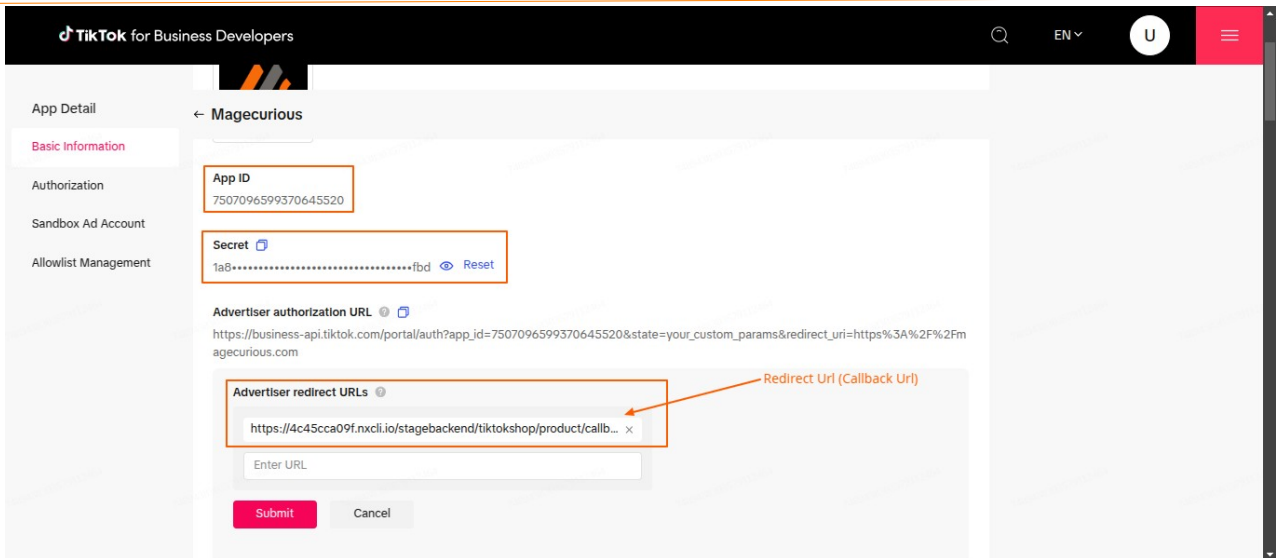

- First, you've registered as a developer. For details, see [Register as developer](#).
- To integrate your Magento store with TikTok, you need to create a TikTok application to get the **App ID** and **App Secret**.

- **Steps:**

1. Log in to your [TikTok Developers Portal](#) with your TikTok Business account credentials.
2. Click on "**My Apps**" in the navigation menu.
3. Click the "**Create App**" button.
4. Fill in the required details for your application:
 - App Name
 - Description
 - Advertiser redirect URL (use admin system configuration callback url for example : **http://127.0.0.1/admin/tiktokshop/product/callback/**)
 - Scope of permissions (ensure you select the permissions related to catalog and product management).

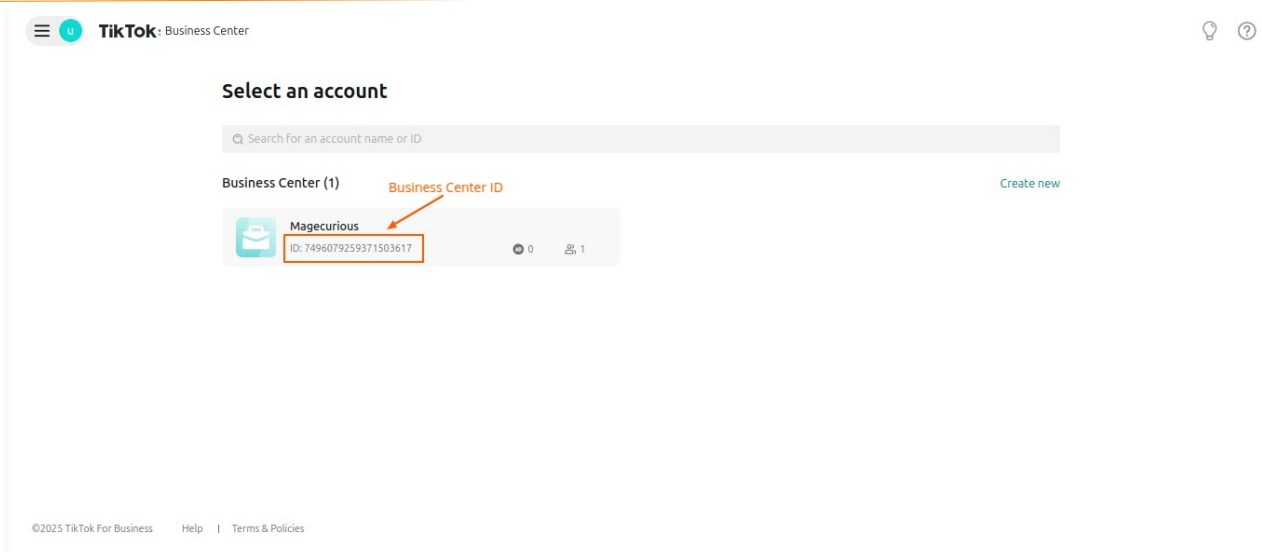

Note : You have now submitted your developer application for review by tiktok. The review may take **2 to 3 business days**.

5. After creating the app, navigate to the "**App Details**" section.
6. Copy the **App ID** and **App Secret** from the dashboard.

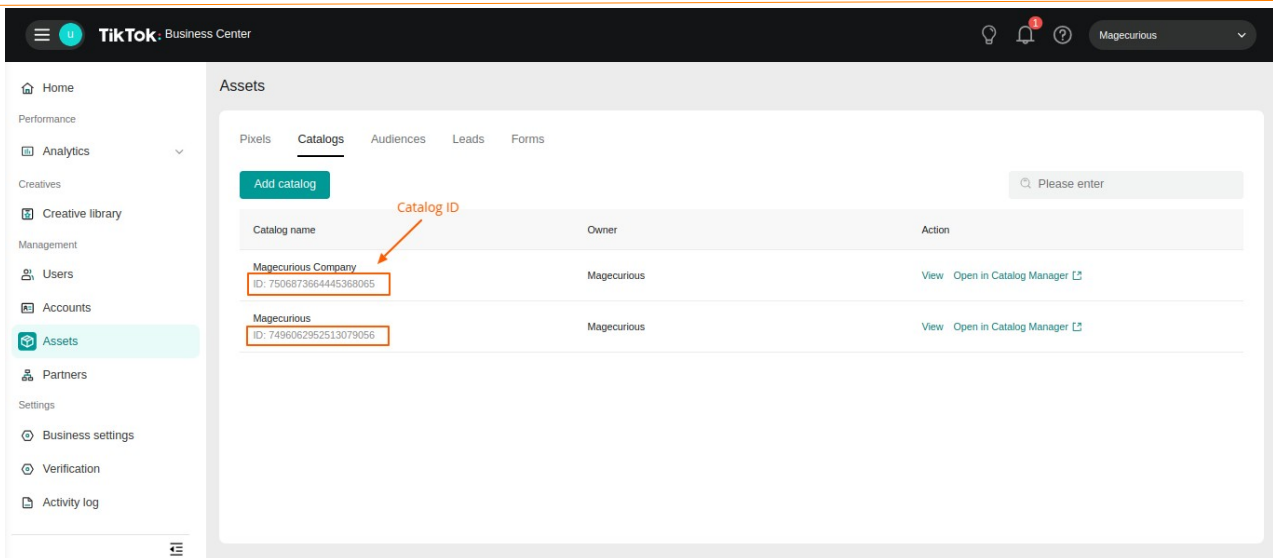

1. Business Center ID

- Your Business Center ID is associated with your TikTok Business account. Follow these steps to retrieve it:
- **Steps:**
 1. Log in to your [TikTok Business Center](#).
 2. Navigate to the "**Business Settings**" tab.
 3. Under the "**Business Information**" section, locate your **Business Center ID**.
 4. Copy this ID for use in the Magento configuration.

1. Catalog ID

- The Catalog ID is required to manage and sync your products with TikTok.
- **Steps:**
 1. Log in to the [TikTok Business Center](#).
 1. Navigate to "Assets" > "Catalogs".
 1. If you don't already have a catalog, click on "Create Catalog" and provide the necessary details.
 1. After the catalog is created, open the catalog.
 1. Find the **Catalog ID** in the catalog details or URL (it's usually a numeric or alphanumeric string).
 1. Copy this ID and use it in the module configuration.

Viewing All Products in TikTok Catalog Manager

After successfully uploading products using the CSV upload or Sync Products feature, follow these steps to view them in your TikTok Catalog Manager account:

- 1. Log in to TikTok Business Account**
 - Go to [TikTok Business Center](#).
 - Log in with your TikTok Business account credentials.
- 2. Navigate to Catalog Manager**
 - From the main dashboard, go to the **Assets** section.
 - Click on **Catalogs** to access your product catalogs.
- 3. Select Your Catalog**
 - Locate the catalog associated with the uploaded products using the Catalog ID.
 - Click on the catalog name to open it.
- 4. View Uploaded Products**
 - Inside the catalog, you'll see a list of all uploaded products.

5. Verify Product Details

- Check that the product details match your Magento store data.
- Ensure images, descriptions, and inventory are displayed correctly.

By following these steps, you can confirm that all products are visible and ready for use in TikTok ads, shopping campaigns, or tagging in TikTok videos.
